PROFESSIONAL PROFILE

Senior technology leader with 18+ years of progressive experience from hands-on Linux/web and full-stack development to engineering leadership, enterprise applications, information systems management, enterprise architecture, technical project/program delivery, and executive digital transformation across Egypt and the GCC. Combines deep software-engineering credibility with technology strategy, application portfolio ownership, architecture governance, systems integration, data platforms, service governance, vendor leadership, Agile/hybrid delivery, release readiness, operational continuity, and executive stakeholder management. Proven across government, healthcare, procurement, medical supply chain, warehousing, inventory, education, analytics, and multi-site enterprise environments.

CAREER POSITIONING

Information Systems & IT Leadership | Software Development & Delivery | Enterprise & Solution Architecture | Digital Transformation | Technical Project & Program Management | Enterprise Applications | Data & Integration | Service Governance | Vendor & Portfolio Leadership

SELECTED CAREER IMPACT

EGP 150M+ technology portfolio | 40+ technology professionals led | 150+ initiatives delivered or governed | 10-platform national ecosystem | 12,000+ public-sector entities supported | 100+ institutions connected | 39,000+ users enabled | 12M+ records processed daily | 99%+ critical-platform availability | 15+ full-cycle GCC enterprise platforms | 150+ portals and applications delivered earlier in career

PROFESSIONAL EXPERIENCE

UPA - Egyptian Authority for Unified Procurement | Cairo, Egypt 05/2025 - Present

Chief Technology & Digital Transformation Officer

Scope: Technology Strategy | Information Systems | Software Delivery | Enterprise Architecture | Data & Integration | Programs & Governance

- Lead enterprise technology strategy and transformation for a national ecosystem spanning procurement, warehousing, inventory, demand planning, stakeholder services, enterprise data, analytics, and government operations.
- Own a 10-platform information-systems and enterprise-applications portfolio supporting 12,000+ public-sector entities, translating business priorities into roadmaps, architecture, modernization, delivery, service ownership, and measurable outcomes.
- Govern enterprise and solution architecture, target states, application portfolio decisions, integration standards, data governance, security controls, non-functional requirements, resilience, technical debt, and transition roadmaps.
- Direct software development and delivery across C#.NET, React.js, Node.js, REST APIs, GraphQL, PostgreSQL/MySQL, Microsoft Dynamics 365 ERP/CRM connectivity, Power BI, Apache Superset, and national data services.
- Lead concurrent programs and projects through scope, WBS, milestones, dependencies, requirements, estimation, RAID/change control, SIT/UAT, defect triage, release planning, deployment, hypercare, acceptance, and operational handover.
- Establish service ownership, support tiers, incident/problem escalation, change/release governance, access reviews, backup and recovery, business continuity, SLA/KPI visibility, vendor performance reviews, documentation, IT policies/SOPs, and knowledge transfer.
- Lead developers, analysts, architects, data teams, QA/support professionals, business owners, vendors, and implementation partners; maintain executive and steering-level reporting across more than 100 government institutions.

UPA - Egyptian Authority for Unified Procurement | Cairo, Egypt 10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Directed implementation, modernization, maintenance, and high-availability support for procurement, medical-supply, inventory, reporting, stakeholder, and enterprise technology services.
- Approximately tripled departmental delivery capacity through clearer ownership, role accountability, OKRs, mentoring, reusable procedures, technical enablement, and structured operating practices.
- Improved release quality, deployment discipline, and support consistency through requirements controls, QA standards, code review, documentation, escalation paths, release governance, and repeatable procedures.
- Governed multi-agency technology coordination for Egypt's National Pharmaceutical Track & Trace Program and supported ministerial oversight of national blood operations.
- Led nationwide onboarding, training, technical support, issue escalation, digital adoption, and feedback across a large distributed public-sector community.

Integral Solutions LLC | Muscat, Oman 05/2016 - 10/2020

Development Team Leader & Senior Full-Stack Developer | Government Client Assignments

- Served as technical lead through Integral Solutions on major Omani government client assignments, embedded with the Ministry of Education for over 2.5 years, the Ministry of Defence for approximately six months, the Ministry of Endowments and Religious Affairs, and the Ministry of Agriculture.
- Worked extensively on Oman Ministry of Education's national Educational Portal and delivered or enhanced multiple connected systems, including the Recruitment System, which received the Sultan Qaboos Award.
- **Designed and delivered additional public-sector solutions, including a Royal Guard of Oman club-management system, spanning portals, workflow applications, integrations, reporting, and secure data services.**
- **Led cross-border engineering teams of 10+ across full-cycle delivery using ASP.NET/C#, React.js, Node.js, SQL Server/MySQL, and Web APIs, from discovery and architecture through QA, deployment, training, and production support.**

Keyframe Egypt | Cairo, Egypt 04/2011 - 05/2016

Development Team Leader & Senior Full-Stack Developer

- **Delivered 150+ websites, public portals, enterprise applications, and electronic systems across government, healthcare, education, construction, automotive, events, and commercial sectors.**
- **Directed portal and application delivery for Egypt's Ministry of Health, Oman's Ministry of Agriculture, and other public and corporate organizations, translating business needs into reliable digital services.**
- **Designed REST API integrations, responsive interfaces, CMS solutions, backend/database performance improvements, and reusable technical documentation adopted across delivery teams.**
- **Mentored developers and enforced coding, documentation, testing, and release standards that reduced rework and improved delivery consistency across a high-volume project portfolio.**

Egyptian Armed Forces | Egypt 04/2008 - 10/2010

Linux Systems & Web Developer

- **Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening.**
- Built secure internal web applications using ASP.NET and SQL Server, maintaining strong security, code integrity, and operational reliability.

LEADERSHIP APPOINTMENTS & PROFESSIONAL CONTRIBUTIONS

- Digital Transformation Committee Member - World Bank Group B-READY Egypt Assessment (2025-2026): contributed technical input supporting private-sector digitization, public-service modernization, and national competitiveness.
- Board Member - National Blood Operations Oversight (2021-2024), appointed by Egypt's Minister of Health: oversaw digital governance, data integrity, and technology standards for the national blood-supply system.
- Governance Lead - National Pharmaceutical Track & Trace Program (2021-2024): shaped vision, governance framework, compliance model, stakeholder coordination, and technology roadmap across UPA, EDA, and Ministry of Health stakeholders.
- International Speaker - Bioinformatics & Digital Health, Manama Health Congress & Expo, Bahrain (2022): addressed senior policymakers and technology executives.
- Digital Health & Technology Contributor - Africa Health ExCon, Cairo (2021-Present): contributed to strategic programming, digital-health content, and technical-track collaboration.

SELECTED ENTERPRISE PLATFORMS & PROGRAMS

MedIQ / Unified Procurement & Medical Supply Ecosystem

Architecture, delivery, and governance of an integrated 10-platform ecosystem supporting RFPs, approvals, inventory, distribution, suppliers, supply-chain controls, planning, and forecasting across 12,000+ public-sector entities; 320,000+ automated validation checks.

Technology: ASP.NET, C#, React.js, Node.js, GraphQL, MySQL

Egypt's National Health Sector Data Warehouse & Strategic Analytics Layer

Governed enterprise data environment spanning PostgreSQL, pipelines, master data management, operational data stores, validation controls, Power BI, and Apache Superset across 100+ institutions; processes 12M+ records daily.

Technology: PostgreSQL, SQL, Data Pipelines, MDM, Power BI, Apache Superset

Microsoft Dynamics 365 ERP & CRM Integration

Enterprise integration connecting procurement, operational, stakeholder, reporting, and data platforms through controlled REST APIs, data mapping, workflow alignment, validation, and coordinated ownership.

Technology: Microsoft Dynamics 365, REST APIs, Data Mapping, Workflow Integration

Tenders, Contracts, Order Tracking & SLA Visibility

Digital tendering, approvals, vendor evaluation, contracts, fulfillment tracking, SLA alerts, ownership dashboards, escalation, audit traceability, and support workflows.

Technology: ASP.NET, C#, MySQL, Workflow Engines, RBAC, BI Dashboards

Health Technology Assessment (HTA) Platform

Workflow digitization for evidence submission, review, assessment tracking, dashboards, audit traceability, and compliance reporting aligned with national healthcare requirements.

Technology: Workflow Engine, Dashboards, Audit Logs, Compliance Reporting

Government, Education & Enterprise Applications Portfolio

Public-sector portals and enterprise applications for Egypt's Ministry of Health, UPA, Oman's Ministry of Agriculture, Oman's national education sector, plus Electronic Pharmacy, Correspondence, Asset & Crisis Management, Recruitment ATS, Customer Care, Notifications, SMS Gateway, and unified mobile services.

Technology: ASP.NET, C#, SQL Server, REST APIs, CMS, GIS, LMS, Mobile Integration

TECHNOLOGY LEADERSHIP & MANAGEMENT CAPABILITIES

Strategy, Transformation & Executive Leadership: Technology Strategy, Digital Transformation, Operating Model Improvement, Technology Roadmaps, Portfolio Management, Budget/Investment Governance, Vendor Governance, Executive Stakeholder Management, Steering Reporting, Change & Adoption Leadership

Information Systems & Enterprise Applications: Information Systems Leadership, Application Portfolio Management, Enterprise Applications, Business Applications, Service Ownership, Service Catalog, Support Tiering, Application Lifecycle, Operational Acceptance, Configuration Governance, IT Policies & SOPs, Knowledge Transfer

Enterprise & Solution Architecture: Business Capability Alignment, Capability-Based Planning, Target-State Architecture, Architecture Principles, Reference Patterns, Application Portfolio Rationalization, Integration & Data Architecture, Architecture Reviews, NFRs, Modernization & Transition Roadmaps, Exception Management

Software Engineering & Delivery: Software Development Management, Engineering Team Leadership, Capacity Planning, Estimation, Work Allocation, Backlog Readiness, Peer Review, Coding Standards, Technical Debt, Agile/Scrum/Hybrid SDLC, QA, SIT, UAT, Release Planning, Deployment, Hypercare, Production Readiness

Technical Project & Program Management: Project Charter, Scope, WBS, Schedule Baselines, Milestones, Resource Planning, RAID Logs, Dependencies, Decision Logs, Change Control, Requirements Elicitation, Current/Future State, Acceptance Criteria, Executive/Steering Reporting, Vendor Delivery, Handover

Service, Security & Continuity Governance: Incident/Problem Escalation, Change & Release Governance, SLA/KPI Management, RBAC, API Security, Audit Logs, Access Reviews, High Availability, Backup & Recovery, Business Continuity, Operational Readiness, Documentation, Service Review

Data, Integration & Analytics: REST APIs, GraphQL, Microsoft Dynamics 365 ERP/CRM Integration, PostgreSQL, SQL Server, MySQL, Data Pipelines, Master Data Management, Data Governance, Operational Data Stores, Power BI, Apache Superset

Engineering Technology Foundation: C#, ASP.NET Core, .NET Framework, Entity Framework, React.js, Node.js, JavaScript, HTML5, CSS3, LINQ, Object-Oriented Programming, Git, Jira, Postman, Docker, Jenkins, CI/CD

Earlier & Supporting Technologies: jQuery, Bootstrap, Kendo UI, DevExpress, SSRS, Crystal Reports, Sitefinity, Kentico, Umbraco, nopCommerce, CMS platforms, GIS integration, LMS components

DOMAIN EXPERIENCE

Government & Public Sector | Healthcare & Digital Health | Procurement & Medical Supply Chain | Warehousing & Inventory | Demand Planning | Education | Enterprise Data & Analytics | Construction & Commercial Digital Services | GCC Multi-country Delivery

ROLE ALIGNMENT

Information Systems Manager | IT Manager | Software Development Manager | Software Delivery Manager | Enterprise Architect | Solution Architect | Technical Project Manager | Technical Delivery Manager | Digital Transformation Director / Manager | CTO / IT Director | Head of Applications | Enterprise Applications Manager | Technology Program Director | Product Delivery Manager

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
