PROFESSIONAL PROFILE

Digital transformation and technology leader with 18+ years of experience modernizing enterprise platforms and high-volume government services across Egypt and the GCC. Combines hands-on software and architecture depth with digital strategy, As-Is/To-Be analysis, process redesign, operating-model transformation, program governance, change management, data governance, stakeholder leadership, benefits realization and measurable service improvement.

CORE LEADERSHIP AREAS

Digital Strategy & Transformation Roadmaps | As-Is/To-Be & Process Redesign | Operating Model & Platform Modernization | Program/Portfolio Governance | Change Management & Adoption | Data Governance | Benefits Realization

SELECTED CAREER IMPACT

- Lead modernization of core workflows across a national procurement ecosystem serving ~60K users and ~90K facilities/entities, with core procurement operations at ~1M transactions/month.
- Modernized procurement, medical-supply and inventory/warehouse operations through governed digital workflows and MediQ capabilities, strengthening traceability, auditability, service consistency and operational control.
- Shaped governance and technology direction for the National Pharmaceutical Track & Trace Program across UPA, the Egyptian Drug Authority and Ministry of Health stakeholders, aligning compliance, interoperability, data integrity and delivery.
- Led delivery across 15+ enterprise/e-government platforms in Oman, including the ~1M-user National Educational Portal and the Sultan Qaboos Award-winning Ministry of Education Recruitment System.

PROFESSIONAL EXPERIENCE

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 05/2025 - Present

Head of the Central Administration for Information Systems & Digital Transformation

Scope: Digital Transformation Strategy | Enterprise Modernization | Program Governance, Change & Adoption

- Lead digital strategy and transformation-roadmap execution for a unified national procurement platform spanning demand, approvals, tendering, supplier evaluation, contracting, purchase orders, delivery/receipt, reporting, auditability and support.
- Translate As-Is pain points into To-Be processes, prioritized workstreams, platform and data/integration requirements, governance models, stakeholder plans, benefits measures and service outcomes.
- Direct cross-functional business and technology transformation across a 54-person organization, aligning analysis, architecture, engineering, QA/reporting, data, service operations and delivery governance.
- Drive process digitization through configurable workflows, shared services, role/data-level access, document/archiving, publishing, reporting and integrations while maintaining security, resilience and operational ownership.
- Lead change management and nationwide adoption through stakeholder engagement, onboarding, training, support, CRM/service feedback, escalation and service-readiness controls; use operational evidence to drive continuous improvement.
- Advance data governance, executive reporting, transformation KPIs, benefits-realization and service-performance visibility, and controlled enterprise AI adoption as part of institutional modernization.

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Modernized procurement, medical-supply, inventory, reporting, CMS/publishing, workflow, and stakeholder-service processes while maintaining operational continuity.
- Converted high-volume manual, paper-, Excel-, and email-based processes into configurable digital workflows with stronger traceability, consistency, approvals, auditability, and governance.
- Improved adoption and delivery readiness through stakeholder engagement, training, support, documentation, QA/release controls, escalation, and structured feedback loops.
- Coordinated multi-agency transformation initiatives, aligning requirements, technology decisions, data, compliance, rollout, and operational readiness.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Development Team Leader & Senior Full-Stack Developer | Government Client Assignments

- Led a 10+ developer team while remaining hands-on in analysis, C#/.NET development, database/reporting, testing, deployment and production support across 15+ enterprise/e-government platforms, including Oman Ministry of Education's ~1M-user National Educational Portal.

- Contributed extensively to the large-scale Maktabi / Morasalat electronic correspondence platform for Omani government entities, working hands-on on correspondence creation, routing, forwarding and tracking, reports, database components, functional testing, defect investigation, production deployment and release/application support.
- Delivered the Ministry of Education Recruitment System — recipient of the Sultan Qaboos Award — plus International Schools, Crisis Management and Asset Management systems; also contributed to Ministry of Agriculture delivery and Al Wahat Club Management System for Royal Court Affairs.

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Development Team Leader & Senior Full-Stack Developer

- Led a 6-person development team while remaining deeply hands-on across 150+ major and mid-sized projects, excluding small engagements, across government, healthcare, education, construction, automotive, events and commercial sectors.
- Delivered public-sector and enterprise solutions spanning Ministry of Health work, conference platforms, education and HR systems, support desks and integrations, covering analysis, C#.NET development, databases, reporting, testing, deployment and support.
- Delivered multiple award-winning digital solutions, including Yashfeen, an ITIDA competition-winning healthcare portal.

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening; also built secure internal ASP.NET/SQL Server applications.

LEADERSHIP APPOINTMENTS & GOVERNANCE CONTRIBUTIONS

- Member, Egypt Digital Transformation Committee supporting the World Bank Group B-READY Assessment (2025-2026): contributed technical input on private-sector digitization, public-service modernization and national competitiveness.
- Board Member - National Blood Operations Oversight (2021-2024), appointed by Egypt's Minister of Health: oversaw digital governance, data integrity, and technology standards for the national blood-supply system.
- Governance Lead - National Pharmaceutical Track & Trace Program (2021-2024): shaped the vision, governance framework, compliance model, stakeholder coordination and technology roadmap across UPA, EDA and Ministry of Health stakeholders.
