PROFESSIONAL PROFILE

IT service-delivery and operations leader with 18+ years spanning hands-on engineering, enterprise applications, technical-team leadership and national-scale technology operations across Egypt and Oman. Currently leads a 54-person technology organization with 7 direct reports and oversees a ~20-person support/customer-service operation. Combines service governance, full-spectrum technical support, customer operations, service-desk development and CRM integration, SLA/KPI management, escalation, onboarding/training, vendor coordination and continuous improvement.

CORE LEADERSHIP

IT Service Delivery | IT Operations | Customer Service | Technical Support | Service Desk / Help Desk | CRM Integration | SLA & KPI Governance | Incident & Escalation Management | Problem Management / RCA | Service Transition | User Onboarding & Training | Knowledge Management | Vendor & Stakeholder Coordination | Applications & Infrastructure Support

SELECTED CAREER IMPACT

- Oversee a ~20-person support/customer-service operation within a 54-person technology organization supporting national-scale digital services.
- Own service-desk evolution and CRM-platform integration, connecting customer interactions, technical support, escalation and service follow-up.
- Govern support across applications, systems, infrastructure and related technology services, with SLA/KPI, incident, escalation and RCA disciplines.
- Bring hands-on engineering and delivery depth from 15+ Oman enterprise/e-government platforms and 150+ major/mid-sized Keyframe projects.

PROFESSIONAL EXPERIENCE

Egyptian Authority for Unified Procurement (UPA) | Cairo, Egypt 05/2025 - Present
Head of the Central Administration for Information Systems & Digital Transformation

Scope: IT Services | Operations | Customer/Technical Support | Enterprise Systems | Digital Transformation

- Lead technology and service operations within a 54-person organization with 7 direct reports, aligning enterprise systems, technical support, customer service, infrastructure/security, data/reporting and delivery around institutional priorities.
- Oversee a ~20-person support/customer-service operation serving national-scale procurement and medical-supply platforms; govern service quality, escalations, SLA/KPI monitoring, operational reporting and continuous improvement.
- Own development and evolution of the service-desk/help-desk capability and its integration with a CRM platform, strengthening case tracking, customer interactions, technical follow-up, escalation and service visibility.
- Govern support across applications, systems, infrastructure and related technology services, coordinating internal teams, vendors and stakeholders through incident, problem/RCA, escalation and service-restoration practices.
- Govern service transition through QA/UAT, release, deployment, onboarding, training, production handover and ongoing support, with documentation and knowledge-transfer controls.
- Direct platform modernization for ~60K users, ~90K facilities/entities, ~300 suppliers and ~1M transactions/month while balancing customer experience, continuity, security and resilience.

Egyptian Authority for Unified Procurement (UPA) | Cairo, Egypt 10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Directed enterprise applications, systems, technical support and customer/stakeholder-service delivery across procurement, medical supply, inventory, reporting, CMS/publishing and workflow capabilities.
- Led service-desk/support operations and structured support processes, escalation paths, SLA/KPI monitoring, documentation, knowledge transfer, onboarding and user training.
- Strengthened engineering and service quality through ownership, technical standards, QA/release gates, incident/RCA practices and repeatable support procedures.
- Coordinated nationwide onboarding, training, support, escalation, feedback and adoption across public-sector stakeholders.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Development Team Leader & Senior Full-Stack Developer

Scope: 10+ Technical Team | 15+ Enterprise / E-Government Platforms

- Led a 10+ developer team across concurrent enterprise/e-government initiatives while remaining hands-on in development, database/reporting, testing, deployment, rollout and production support.
- Worked extensively on the ~1M-user National Educational Portal and contributed to Maktabi/Morasalat electronic correspondence across workflows, reports, database components, testing, deployment, release and application support.
- Coordinated support, issue resolution, releases and stakeholder communication across government platforms, combining technical troubleshooting with service continuity.

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Development Team Leader & Senior Full-Stack Developer

Scope: 6-Person Team | 150+ Major & Mid-Sized Projects

- Led a 6-person development team while remaining hands-on across 150+ major and mid-sized projects/engagements, excluding small projects, across government, healthcare, education and commercial sectors.
- Delivered and supported public-sector portals and enterprise solutions spanning CMS, workflow, reporting, integrations, testing, deployment and client handover; delivery included confirmed ITIDA-winning Yashfeen.

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Contributed to Egypt's first Linux distribution through Linux from Scratch builds, kernel modules, optimization and platform hardening; also built secure internal ASP.NET/SQL Server applications.
