PROFESSIONAL SKILLS

Innovative and results-driven **Chief Technology & Digital Transformation Officer (CTDTO)** and **Senior Full-Stack Developer** with **17+ years of success** in designing and delivering enterprise-grade software and national-scale digital platforms. Proven track record in leading **end-to-end digital transformation** initiatives, aligning technology with strategic goals in **public sector and healthcare** environments. Expert in **Agile, DevOps**, and **modern system architecture**, with a focus on **performance, resilience**, and **real-time analytics** to support informed decision-making. Known for mentoring high-performing cross-functional teams and managing **complex IT portfolios** with measurable outcomes. Spearheaded the transformation of **national procurement and inventory systems**, improving system adoption by **75%** and cutting operational delays by **40%** across **100+ institutions**. Driven by a commitment to **excellence, innovation**, and delivering impactful technology at the intersection of **governance and digital strategy**.

EXPERIENCE

Chief Technology & Digital Transformation Officer (CTDTO)

Cairo, Egypt

[The Egyptian Authority for Unified Procurement, Medical Supply and the Management of medical technology 'UPA'](#)

05/2025 - Present

- **Led UPA's digital transformation initiatives** aligned with **Egypt Vision 2030**, impacting **12,000+ public hospitals and entities**, and executing a **national technology strategy** across **10+ core platforms** to boost interoperability and reduce manual workload by **60%**.
- **Directed development and deployment** of enterprise systems for **procurement, warehousing, and inventory**, reducing cycle times by **40%**, improving transparency, and maintaining **99.9% system uptime**.
- **Managed implementation and integration of Microsoft Dynamics 365 (ERP & CRM)**, centralizing operations, streamlining workflows, and enhancing stakeholder engagement across government entities.
- **Led and mentored 20+ cross-functional developers, analysts, and team leaders**, delivering scalable full-stack solutions and launching **real-time analytics dashboards** via **Superset**, cutting reporting time by **70%** and enhancing executive decision-making.
- **Delivered complex digital programs from strategy through execution**, ensuring full **security, backup, and compliance** across 100% of digital assets, while leading **nationwide training for 39,000+ staff** and increasing digital tool utilization by **75%**.

General Manager of Systems, Applications and Technical Support Department

Cairo, Egypt

[The Egyptian Authority for Unified Procurement, Medical Supply and the Management of medical technology 'UPA'](#)

10/2020 - 05/2025

- **Directed the implementation, maintenance, and support** of all digital systems, applications, and technical infrastructure, ensuring high availability and alignment with operational needs.
- **Increased department productivity by 200%** by mentoring technical teams, driving performance, and fostering continuous growth and upskilling.
- **Partnered with key stakeholders** across departments to ensure all development initiatives supported strategic goals and evolving technology demands.
- **Introduced new tools and emerging technologies**, delivered targeted training programs, and cultivated a culture of continuous improvement and innovation.
- **Actively engaged in software development**, promoting best practices and collaborating with teams to deliver secure, scalable, and high-quality digital solutions.
- **Authored and maintained technical documentation**, supporting effective onboarding, cross-team knowledge sharing, and long-term maintainability of systems.

Development Team Leader and Senior Full Stack Developer

Muscat, Oman

[Integral Solutions LLC](#)

05/2016 - 10/2022

- **Increased profit by 100%** by leading and mentoring web development teams, enhancing technical capabilities, and fostering a culture of continuous improvement.
- **Oversaw multiple full-cycle web development projects**, ensuring timely delivery, scope alignment, and consistently high-quality outcomes.
- **Collaborated on system architecture and design**, focusing on **security, scalability**, and long-term maintainability of platforms and applications.
- Delivered **innovative solutions** and hands-on **troubleshooting** to resolve complex technical issues and support project success.
- **Implemented rigorous QA processes**, enforced clean coding standards, and maintained comprehensive, up-to-date technical documentation.
- **Worked closely with clients and cross-functional teams** to gather requirements, communicate progress, and align deliverables with business objectives.

EXPERIENCE

Development Team Leader and Senior Full-Stack Developer

Keyframe Egypt

Cairo, Egypt
04/2011 - 05/2016

- **Built dynamic, scalable web applications and reusable components** using **C#, ASP.NET, JavaScript**, and other modern technologies across the **full software development lifecycle (SDLC)**.
- **Implemented responsive UI designs** and interactive front-end features to enhance performance and elevate the **user experience (UX)**.
- Developed **robust server-side logic** and optimized **SQL Server database schemas** to support secure, high-performance data operations.
- **Collaborated with designers, UX specialists, and project managers** to align development with business goals and ensure functional delivery.
- Applied **web security best practices**, performed in-depth **debugging and troubleshooting**, and maintained application reliability.
- **Created and maintained comprehensive technical documentation**, supporting team onboarding, development consistency, and knowledge sharing.

EDUCATION

Bachelor of Computer Science

Faculty of computer and informatics , Zagazig University

Egypt
09/2003 - 06/2007

STRENGTHS

Problem Solving	Critical Thinking	Communication
Organizational Skills	Leadership	Time Management
Emotional Intelligence	Continuous Learning	Cross-Functional Collaboration

KEY ACHIEVEMENTS

Digital Transformation Leadership

Led national-scale digital initiatives across 12,000+ public entities, aligning with Egypt Vision 2030 and modernizing core systems.

Delivery Excellence

Oversaw high-impact projects worth over EGP 150M, ensuring on-time delivery, measurable ROI, and strategic alignment.

Operational Efficiency

Streamlined procurement, inventory, and warehousing systems, reducing cycle times by 40% and manual workload by 60%.

Data-Driven Decision Making

Deployed real-time analytics platforms (Power BI, Superset), cutting reporting time by 70% and enhancing executive visibility.

Team Building & Leadership

Built and mentored cross-functional teams of 30+ developers and analysts, fostering a high-performance, innovation-driven culture.

Enterprise Security & Compliance

Implemented enterprise-grade encryption, MFA, and governance policies to ensure 100% compliance with national standards.

LANGUAGES

Arabic (Native)	English (Advanced)
-----------------	--------------------

TECHNICAL SKILLS

Enterprise Architecture & Platforms:

.NET Core, ASP.NET, Entity Framework, ADO.NET, ReactJS, Kendo UI, jQuery, Chart.js, Bootstrap, Sitefinity, Kentico

Data, Reporting & Analytics:

PostgreSQL, SQL Server, MySQL, Apache Superset, SSRS, Crystal Reports, DevExpress, MongoDB, Redis, REST, GraphQL

Security, Governance & Optimization:

Web Security, Data Encryption, Data Compliance, Technical Documentation, Secure Coding Practices

DevOps, Automation & Tooling: Git, GitHub, Jenkins, Docker, Postman, CI/CD Pipelines, Performance Monitoring

Software Engineering & Methodologies:

Agile, Scrum, SDLC, QA Strategy, Troubleshooting, Technical Audits, System Integration

Programming Languages & Technologies: C#, JavaScript, HTML, CSS, SQL, LINQ, OOP

PROJECTS

Procurement and Supply of Medical Products System

- Designed and developed a scalable, secure web application for managing the procurement, inventory, and distribution of medical products
- Utilized ASP.NET, C#, React.js, Node.js, GraphQL, and MySQL for robust system features
- Delivered a responsive, cross-platform solution for desktop and mobile devices

Tenders and Contracts System

- Built a secure tendering management system using ASP.NET, C#, MySQL, and JavaScript, with full workflow support and user access control.

Educational Portal for the Ministry of Education

- Designed and developed an educational portal to support digital learning initiatives across Oman.
- Developed a platform with centralized access to academic resources, featuring a robust content management system for efficient organization, publishing, and user access control.

Correspondence Management System

- Led the design and implementation of a Correspondence Management System, streamlining organizational communication workflows, improving traceability, and reducing manual handling.
- Included features like automated routing, e-signature integration, and role-based access control.

Asset Management System

- Designed and developed a comprehensive Asset Management System to streamline asset tracking and maintenance processes.
- Implemented automated maintenance alerts and role-based access controls (RBAC) to ensure timely operations, reduce system downtime, and enforce secure, role-specific user access.

Crisis Management System

- Delivered a real time collaboration platform with dynamic dashboards and communication tools, accelerating decision making, streamlining team coordination, and improving cross-functional transparency.

Recruitment System

- Designed and developed a comprehensive Recruitment System to streamline the hiring process
- Included features for job posting management, applicant tracking, and candidate assessments

Ministry of Health and Population of Egypt Website

- Developed and maintained the official website of Egypt's Ministry of Health and Population, delivering an accessible digital platform that empowered citizens with timely, essential health information and public service resources.

Ministry of Agriculture, Fisheries and Water Resources of the Sultanate of Oman Website

- Led end-to-end development and launch of the official Ministry of Agriculture, Fisheries, and Water Resources (Oman) website, deploying a scalable CMS with multimedia integration boosting public engagement by 40% and reducing information request response time by 25%.
