PROFESSIONAL PROFILE

Technology and digital transformation executive, enterprise architect, information-systems leader, and engineering manager with 18+ years of experience across government, healthcare, education, and large public-sector environments in Egypt and the GCC. Directs an EGP 150M+ portfolio and a multidisciplinary organization of 40+ professionals. Led or contributed to 150+ digital initiatives spanning enterprise applications, national platforms, systems integration, data warehouses, analytics, software delivery, and IT governance, while retaining a strong hands-on foundation in full-stack engineering and solution architecture.

EXECUTIVE IMPACT

18+ Years in Technology	EGP 150M+ Portfolio Managed	40+ Professionals Led	12,000+ Entities Supported	150+ Digital Initiatives	39,000+ Staff Reached
-------------------------	-----------------------------	-----------------------	----------------------------	--------------------------	-----------------------

LEADERSHIP & FUNCTIONAL SCOPE

- Executive Technology & Digital Transformation: strategy, roadmaps, portfolio management, executive stakeholder engagement, change management, and digital adoption.
- Enterprise Architecture & Information Systems: enterprise and solution architecture, application modernization, systems integration, ERP/CRM integration, service availability, and IT operations.
- Software Engineering & Technical Delivery: engineering leadership, full-stack delivery, technical program management, Agile, QA, DevOps, release governance, and vendor coordination.
- Data, Analytics & Sector Platforms: data warehouses, master data, BI, government technology, healthcare platforms, procurement, supply-chain systems, and multi-agency programs.

PROFESSIONAL EXPERIENCE

Head of Central Administration - Information Systems & Digital Transformation

Egyptian Authority for Unified Procurement, Medical Supply & Medical Technology (UPA) | Cairo, Egypt | May 2025 - Present

- Lead enterprise technology strategy and digital transformation across healthcare procurement, warehousing, inventory, demand planning, data, analytics, and government operations.
- Direct an EGP 150M+ portfolio spanning enterprise applications, data platforms, systems integration, analytics, and technology infrastructure.
- Govern enterprise and solution architecture, platform modernization, integration standards, data governance, security controls, and long-term technology roadmaps.
- Oversee integrations connecting operational and procurement platforms with Microsoft Dynamics 365 ERP and CRM, the National Health Sector Data Warehouse, Power BI, and Apache Superset.
- Lead a cross-functional organization of 40+ developers, analysts, architects, and support professionals while coordinating vendors and implementation partners.
- Establish delivery, quality, access-control, backup and recovery, auditability, and service-governance standards across platforms serving 100+ government institutions.

General Manager - Systems, Applications & Technical Support

UPA | Cairo, Egypt | Oct 2020 - May 2025

- Directed implementation, modernization, maintenance, and high-availability support for procurement, medical-supply, inventory, reporting, and stakeholder platforms, sustaining 99%+ operational availability.
- Approximately tripled departmental delivery capacity through team restructuring, OKR-based performance management, mentoring, technical enablement, and continuous upskilling.
- Helped reduce production defects by approximately 50% and deployment time by approximately 35% through QA standards, release governance, coding practices, documentation, and structured delivery procedures.
- Governed multi-agency technology coordination for Egypt's National Pharmaceutical Track & Trace Program and supported ministerial oversight of national blood-supply operations.
- Led nationwide digital adoption and upskilling initiatives reaching 39,000+ staff and contributing to an estimated 75% increase in platform utilization across participating institutions.

PROFESSIONAL EXPERIENCE - CONTINUED

Development Team Leader & Senior Full-Stack Developer

Integral Solutions LLC | Muscat, Oman | May 2016 - Oct 2020

- Led enterprise software delivery for government, healthcare, education, and corporate organizations across Oman and the wider GCC.
- Directed cross-border teams of 10+ developers and delivered 15+ full-cycle enterprise platforms aligned with local e-government standards and regulatory requirements.
- Led delivery of the Oman National Educational Portal, supporting e-learning, content management, academic records, administration, and performance tracking.
- Architected secure, scalable platforms using ASP.NET, C#, React.js, Node.js, SQL Server, MySQL, Web APIs, Kendo UI, and Bootstrap; introduced agile delivery, code review, and QA practices associated with an approximate 45% reduction in reported defects.

Development Team Leader & Senior Full-Stack Developer

Keyframe Egypt | Cairo, Egypt | Apr 2011 - May 2016

- Engineered 100+ websites, public portals, and enterprise applications for government, healthcare, and corporate clients across the full software development lifecycle.
- Led portal delivery for Egypt's Ministry of Health and Oman's Ministry of Agriculture, with improvements associated with an approximate 40% increase in public engagement and an approximate 25% reduction in citizen information-response time.
- Designed REST API integrations, responsive user interfaces, backend database-performance improvements, and technical documentation adopted as team standards.
- Mentored junior developers and enforced code-quality standards, reducing rework and improving delivery consistency.

Linux Systems & Web Developer

Egyptian Armed Forces | Egypt | Apr 2008 - Oct 2010

- Developed and customized Linux-based systems within a restricted defense environment, including Linux-from-scratch configurations, kernel-related components, system optimization, and hardened platform configurations.
- Built secure internal web applications using ASP.NET and SQL Server, maintaining strong security, code integrity, and operational reliability.

LEADERSHIP APPOINTMENTS & PROFESSIONAL CONTRIBUTIONS

- Digital Transformation Committee Member - World Bank Group B-READY Egypt Assessment (2025-2026): contributed technical input supporting private-sector digitization, public-service modernization, and national competitiveness.
- Board Member - National Blood Operations Oversight (2021-2024): appointed by Egypt's Minister of Health; oversaw digital governance, data integrity, and technology standards for the national blood-supply system.
- Governance Lead - National Pharmaceutical Track & Trace Program (2021-2024): shaped the vision, governance framework, compliance model, and technology roadmap across UPA, EDA, and the Ministry of Health.
- International Speaker - Manama Health Congress & Expo, Bahrain (2022): addressed senior policymakers and technology executives on bioinformatics and digital health.
- Digital Health & Technology Contributor - Africa Health ExCon (2021-Present): contributed to strategic programming, digital-health content, and technical-track collaboration.

SELECTED ENTERPRISE PLATFORMS & PROGRAMS

MediQ / Unified Procurement & Medical Supply Ecosystem

Led the architecture and governance of a 10-platform ecosystem supporting 12,000+ public-sector entities across RFPs, approvals, inventory, distribution, supplier processes, and supply-chain controls. Automation of selected workflows reduced manual handling by up to 90%; measured improvements included an approximate 40% reduction in end-to-end procurement-cycle time and reductions of up to 74% in specific workflows.

Technology: ASP.NET, C#, React.js, Node.js, GraphQL, MySQL

Egypt's National Health Sector Data Warehouse & Strategic Analytics Layer

Led the architecture of a governed enterprise data environment incorporating PostgreSQL, data pipelines, master data management, operational data stores, validation controls, and real-time analytics for 100+ government institutions. The environment processes 12M+ records daily and helped reduce executive reporting preparation time by approximately 70%.

Technology: PostgreSQL, SQL, Data Pipelines, MDM, Power BI, Apache Superset

Integration with Microsoft Dynamics 365 ERP & CRM

Directed integration architecture connecting procurement, operational, stakeholder, reporting, and data platforms with Microsoft Dynamics 365 ERP and CRM through controlled data exchange, REST APIs, data mapping, and workflow alignment.

Technology: REST APIs, Data Connectors, Data Mapping, Workflow Integration, Dynamics 365 Connectivity

SELECTED ENTERPRISE PLATFORMS & PROGRAMS - CONTINUED

Supply & Procurement Analytics Enablement

Provided technology and data-platform leadership for demand planning, procurement monitoring, anomaly identification, risk assessment, and cost-optimization analysis across the public healthcare procurement chain.

Technology: PostgreSQL, SQL, Forecasting Support, Risk and Anomaly Analysis

Tenders, Contracts, Order Tracking & SLA Visibility

Led architecture and delivery governance for digital tendering, approvals, vendor evaluation, contract workflows, real-time fulfillment tracking, SLA alerts, ownership dashboards, escalation processes, and audit traceability. The monitoring environment was associated with an estimated 30% reduction in fulfillment delays across monitored processes.

Technology: ASP.NET, C#, MySQL, Workflow Engines, RBAC, BI Dashboards

Health Technology Assessment Platform

Directed platform architecture and workflow digitization supporting evidence submission, review, assessment tracking, audit traceability, dashboards, and compliance reporting aligned with national healthcare requirements.

Technology: Workflow Engine, Dashboards, Audit Logs, Compliance Reporting

Government Portals & Oman National Educational Portal

Led or contributed to public-sector portals for Egypt's Ministry of Health, UPA, Oman's Ministry of Agriculture, and Oman's national education sector. Solutions supported public information, procurement transparency, GIS-enabled services, permits, e-learning, academic records, content management, and performance tracking.

Technology: ASP.NET, C#, SQL Server, CMS Platforms, GIS Integration, LMS Components

Additional Enterprise Applications Portfolio

Delivered or governed 12+ enterprise applications including Electronic Pharmacy, Correspondence Management, Asset Management, Crisis Management, Recruitment ATS, Customer Care and Ticketing, Real-Time Notifications, SMS Gateway, and Unified Mobile Applications.

Technology: Enterprise Applications, Workflow, Integration, Reporting

TECHNICAL CAPABILITIES

- Executive Technology & Architecture Leadership: Technology Strategy, Digital Transformation, Enterprise Architecture, Solution Architecture, Information Systems Leadership, Technology Roadmaps, Portfolio Management, Vendor Governance, Technical Program Delivery, Executive Stakeholder Management
- Systems Integration & Enterprise Platforms: Systems Integration, REST API Design, GraphQL, API Security, Integration Governance, Workflow Integration, Data Mapping, Microsoft Dynamics 365 ERP and CRM Connectivity
- Core Engineering Strengths: C#, ASP.NET Core, .NET Framework, Entity Framework, SQL, PostgreSQL, SQL Server, MySQL, LINQ, Object-Oriented Programming, JavaScript, HTML5, CSS3
- Data, Analytics & Reporting: Power BI, Apache Superset, SSRS, Crystal Reports, Data Pipelines, Master Data Management, Operational Data Stores, Data Validation, Executive Dashboards, Demand Analysis, Forecasting Support
- Application & Platform Delivery: React.js, Node.js, jQuery, Bootstrap, Kendo UI, DevExpress, Workflow Engines, Sitefinity, Kentico, Umbraco, nopCommerce
- Delivery, Security & Operations: Docker, Jenkins, CI/CD, Git, GitHub, Jira, Postman, Agile, SDLC, QA, Release Governance, Secure Coding, RBAC, Data Encryption, Audit Logs, Backup and Recovery, Change Management

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)

Availability: Within one month of offer acceptance | Open to Egypt, GCC, Africa, relocation, and remote opportunities
