### PROFESSIONAL SUMMARY

Technology and IT executive with 18+ years across Egypt and Oman, progressing from hands-on systems and software engineering to leading a 54-person technology organization. Connects technology investment and IT operating models with enterprise platforms, service operations, vendor governance, security oversight and modernization to improve reliability, control and measurable business outcomes across government, healthcare and regulated environments.

### CORE SKILLS

Technology Strategy & IT Operating Models | Enterprise Platforms & Modernization | IT Service Management | Vendor, Contract & Portfolio Governance | Cybersecurity Governance, Risk & Controls | Business Continuity & DR | Enterprise AI Strategy & Use-Case Design

### SELECTED CAREER IMPACT

- Lead a 54-person technology organization with seven direct reports and govern an annual EGP 150M technology sourcing portfolio spanning infrastructure, software, licensing, vendors and contracts.
- Strengthened production operations to 99.9% uptime and reduced downtime by 62% while maintaining zero major security incidents in 2024. Support operations achieved 92% remote resolution, 85% first-call resolution and 4.7/5 user satisfaction.
- Led an EGP 11M Dynamics 365 integration covering process alignment, API contracts, data mapping, SIT/UAT, monitoring and controlled production transition.
- Replaced paper-, Excel- and email-based work with governed workflows, automating 78% of manual procurement and vendor-qualification checks while improving accountability and auditability.

### PROFESSIONAL EXPERIENCE

**The Egyptian Authority for Unified Procurement | Cairo, Egypt**

**05/2025 – Present**

**Head of the Central Administration for Information Systems & Digital Transformation**

**Scope:** Technology Strategy | IT Operating Model | Enterprise Platforms | Service Operations | Risk & Vendor Governance

- Lead a 54-person technology organization with seven direct reports across four functions, setting technology, delivery and service direction for national platforms processing approximately 1M core transactions monthly.
- Set technology strategy, information-systems priorities, operating-model direction and modernization roadmaps across applications, data, integration, infrastructure and security oversight, and service operations.
- Own technology sourcing, licensing, contracts and vendor performance across an annual EGP 150M technology sourcing portfolio, aligning investment to resilience, continuity, security and modernization priorities.
- Govern the application and service lifecycle from requirements, architecture and sourcing through QA/UAT, release, deployment, monitoring, service transition and production support.
- Establish governance across identity and access, RBAC, risk controls, backup and disaster recovery, business continuity, release readiness and vendor service obligations.
- Lead healthcare interoperability across 7 legacy systems and 120+ health centers, including HIS and Electronic Pharmacy capabilities, ICD-10/ICD-11, enterprise APIs and secure Health Insurance Organization data exchange.
- Lead enterprise AI strategy and use-case design, defining 10 prioritized capabilities and a phased integration roadmap covering demand forecasting, tender intelligence, inventory and expiry optimization, risk detection and executive decision support.

**General Manager – Systems, Applications & Technical Support**

- Directed enterprise applications, technical support and customer-service delivery while modernizing established .NET Framework/Telerik solutions toward ReactJS front ends, Node.js services, C#/.NET APIs, PostgreSQL, Redis, Docker and Superset while preserving continuity.
- Strengthened ITSM and engineering discipline through ticket ownership, escalation, SLA and service KPIs, incident and root-cause practices, architecture reviews, QA/release gates, documentation and knowledge transfer.
- Digitized manual processes into governed workflows with approvals, RBAC, auditability, validation, reporting and defined support ownership; automated 78% of manual procurement and vendor-qualification checks.
- Coordinated nationwide onboarding, training, adoption and multi-agency delivery while service operations achieved 92% remote ticket resolution, 85% first-call resolution and 4.7/5 user satisfaction.

**Integral Solutions LLC | Muscat, Oman****05/2016 – 10/2020****Development Team Leader & Senior Full-Stack Developer**

- Led 10+ developers while remaining hands-on across 15+ Omani government platforms, covering requirements, solution design, development, testing, deployment, releases and production support.
- Contributed extensively to the National Educational Portal, serving approximately 1 million users, the Sultan Qaboos Award-winning Recruitment System and Maktabi's large-scale Electronic Correspondence Management System.
- Developed secure government workflows, reporting, database and integration components across C#/.NET, ASP.NET Web Forms, SQL Server and MySQL, including testing and production release support.

**Keyframe Egypt | Cairo, Egypt****04/2011 – 05/2016****Development Team Leader & Senior Full-Stack Developer**

- Delivered or led 150+ projects across government, healthcare, education, construction, automotive, events and commercial sectors; many were largely hands-on, later leading a development team of around seven.
- Owned analysis, C#/.NET engineering, database/reporting design, testing, deployment and support across concurrent multilingual and RTL solutions.
- Delivered Yashfeen, an ITIDA-recognized healthcare solution, and reusable three-tier CMS, reporting and shared-component patterns that accelerated delivery.

**Egyptian Armed Forces | Egypt****04/2008 – 10/2010****Linux Systems & Web Developer**

- Contributed to Egypt's first Linux distribution through Linux From Scratch, kernel modules, optimization and hardening, alongside secure ASP.NET/SQL Server applications.

**TECHNOLOGY, SERVICE & OPERATIONS CAPABILITIES**

---

**Executive Governance:** Technology strategy, IT operating models, portfolio and roadmaps, executive stakeholders, vendor and contract governance, investment prioritization, risk and controls

**Service & Operations:** ITSM, service desk, SLA/KPI management, incident and problem management, RCA, release/change governance, service transition, continuity and disaster recovery

**Architecture & Platforms:** Enterprise/Solution Architecture, REST/SOAP APIs, integration, Microsoft Dynamics 365, C#/.NET, React, Node.js, PostgreSQL, SQL Server, Redis, Docker, Power BI and Superset

**Leadership & Delivery:** Organization leadership, SDLC, QA/UAT, CI/CD governance, vendor management, stakeholder alignment, production readiness, resilience, observability and AI-assisted engineering/analysis

**SELECTED EXECUTIVE & GOVERNANCE CONTRIBUTIONS**

---

- Governance Lead – National Pharmaceutical Track & Trace Program (2021–2024), coordinating multi-agency governance, compliance and interoperability.
- Council Member – Council for Monitoring Blood Operations (2021–2024), representing The Egyptian Authority for Unified Procurement and contributing to digital governance, data integrity and technology standards.
- Member – Egypt Digital Transformation Committee, World Bank Group B-READY Assessment (2025–2026).

**EDUCATION**

---

**B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003–2007**

Languages: Arabic – Native | English – Professional Working Proficiency
