Available within one month | Open to Egypt, GCC, Africa & Remote

EXECUTIVE PROFILE

Senior technology executive with 18+ years of experience leading technology strategy, enterprise platforms, information systems, architecture, software delivery, data, integration, governance, and operational resilience across Egypt and the GCC. Brings a rare combination of executive portfolio leadership and hands-on engineering depth, connecting investment decisions and operating priorities to secure delivery, adoption, and measurable service outcomes.

EGP 150M+ technology portfolio	40+ technology professionals led	12,000+ public-sector entities supported
150+ digital initiatives	99%+ availability across critical platforms	~70% faster executive reporting

Executive leadership grounded in governance, architecture, accountable delivery, security, and sustainable operations.

CORE LEADERSHIP & CAPABILITY AREAS

Technology Leadership Technology strategy, IT operating models, digital transformation, investment roadmaps, portfolio governance, vendor leadership, executive stakeholder management	Enterprise Platforms & Operations Enterprise applications, infrastructure governance, service continuity, release governance, backup and recovery, monitoring, access control, auditability
Architecture, Data & Integration Enterprise architecture, solution architecture, Dynamics 365 ERP/CRM integration, APIs, data platforms, analytics, modernization	Delivery & Adoption Program governance, Agile/SDLC, quality assurance, cross-functional delivery, change management, training, knowledge transfer, benefits realization

PROFESSIONAL EXPERIENCE

Head of Central Administration - Information Systems & Digital Transformation May 2025 - Present
Egyptian Authority for Unified Procurement, Medical Supply & Medical Technology (UPA) | Cairo, Egypt

Market positioning: Technology & Digital Transformation Executive | Enterprise Architect

- Lead enterprise technology strategy and transformation across procurement, warehousing, inventory, demand planning, enterprise data, analytics, and government operations.
- Direct enterprise applications, data platforms, systems integration, analytics, technology infrastructure, vendor relationships, and service governance across a major government technology portfolio.
- Govern enterprise and solution architecture, platform modernization, integration standards, data governance, security controls, resilience, and long-term technology roadmaps.
- Oversee integrations connecting operational and procurement platforms with Microsoft Dynamics 365 ERP and CRM, the National Health Sector Data Warehouse, and enterprise analytics platforms.
- Lead multidisciplinary teams of developers, analysts, architects, support professionals, vendors, and implementation partners.
- Establish delivery quality, access control, backup and recovery, auditability, release governance, and service standards across critical platforms supporting more than 100 government institutions.

General Manager - Systems, Applications & Technical Support Oct 2020 - May 2025
Egyptian Authority for Unified Procurement (UPA) | Cairo, Egypt

- Directed implementation, modernization, maintenance, and high-availability support for procurement, medical supply, inventory, reporting, and stakeholder platforms.
- Approximately tripled departmental delivery capacity through OKR-based performance management, mentoring, technical enablement, and standardized delivery processes.
- Improved release quality and deployment consistency through QA standards, code review, release governance, technical documentation, and structured development procedures.
- Governed multi-agency technology coordination for Egypt's National Pharmaceutical Track & Trace Program and supported ministerial oversight of national blood-supply operations.
- Championed nationwide digital adoption, technical support, and upskilling initiatives across the public-sector procurement and medical-supply network.

PROFESSIONAL EXPERIENCE - CONTINUED

Development Team Leader & Senior Full-Stack Developer
Integral Solutions LLC | Muscat, Oman May 2016 - Oct 2020

- Led cross-border engineering teams of 10+ developers and delivered 15+ full-cycle enterprise platforms for government, healthcare, education, and corporate clients across Oman and the GCC.
- Delivered the Oman National Educational Portal, supporting e-learning, content management, academic records, administration, and performance tracking.

Development Team Leader & Senior Full-Stack Developer
Keyframe Egypt | Cairo, Egypt Apr 2011 - May 2016

- Delivered 100+ public portals, enterprise applications, corporate websites, and digital service platforms across government, healthcare, education, construction, automotive, events, and commercial sectors.
- Directed portal delivery for Egypt's Ministry of Health, Oman's Ministry of Agriculture, and other public and corporate organizations.

Linux Systems & Web Developer
Egyptian Armed Forces | Egypt Apr 2008 - Oct 2010

- Developed and customized Linux-based systems within a restricted defense environment, including Linux from Scratch builds, kernel modules, system optimization, and hardened platform configurations.
- Built secure internal web applications using ASP.NET and SQL Server, maintaining strong security, code integrity, and operational reliability.

LEADERSHIP APPOINTMENTS & PROFESSIONAL CONTRIBUTIONS

- Digital Transformation Committee Member - World Bank Group B-READY Egypt Assessment (2025-2026).
- Board Member - National Blood Operations Oversight, appointed by Egypt's Minister of Health (2021-2024).
- Governance Lead - National Pharmaceutical Track & Trace Program, UPA / EDA / Ministry of Health (2021-2024).
- International Speaker - Bioinformatics & Digital Health, Manama Health Congress & Expo, Bahrain (2022).
- Digital Health & Technology Contributor - Africa Health ExCon, Cairo (2021-Present).

SELECTED ENTERPRISE PLATFORMS & TRANSFORMATION PROGRAMS

MediQ / Unified Procurement & Medical Supply Ecosystem

Led architecture and governance of an integrated 10-platform ecosystem supporting RFPs, approvals, inventory, distribution, supplier processes, and supply-chain controls across 12,000+ public-sector entities. The environment processed 320,000+ automated validation checks and strengthened transparency, planning, and stock visibility.

Selected technology: ASP.NET, C#, React.js, Node.js, GraphQL, MySQL, APIs

Egypt National Health Sector Data Warehouse & Analytics Layer

Led architecture of a governed enterprise data environment with PostgreSQL, data pipelines, master data, operational data stores, validation controls, Power BI, and Apache Superset. The reporting layer processes 12M+ records daily and contributed to approximately 70% faster executive reporting preparation.

Selected technology: PostgreSQL, SQL, Data Pipelines, MDM, ODS, Power BI, Apache Superset

Microsoft Dynamics 365 ERP & CRM Integration

Directed integration architecture connecting procurement, operations, stakeholder services, reporting, and data platforms with Dynamics 365 through controlled exchange, mapping, validation, reconciliation, workflow alignment, monitoring, and audit controls.

Selected technology: Microsoft Dynamics 365, REST APIs, Data Connectors, Mapping, Audit Logs

National Pharmaceutical Track & Trace Program

Shaped program vision, governance, compliance model, cross-agency coordination, interoperability principles, and the technology roadmap across UPA, the Egyptian Drug Authority, and the Ministry of Health.

Selected technology: Governance, Compliance, Interoperability, Program Roadmap

Health Technology Assessment Platform

Directed digitization of evidence submission, controlled review, assessment tracking, role-based access, audit traceability, dashboards, and compliance reporting.

Selected technology: Workflow Engine, Dashboards, Audit Logs, RBAC, Compliance Reporting

TECHNICAL & DELIVERY CAPABILITIES

Executive & Governance: Technology Strategy, Digital Transformation, IT Operating Models, Enterprise Architecture, Portfolio Governance, Vendor Governance, Executive Stakeholder Management, Program Governance, Change & Adoption

Architecture & Integration: Capability Mapping, Target-State Architecture, Solution Architecture, REST APIs, GraphQL, Integration Governance, Data Contracts, Microsoft Dynamics 365 ERP/CRM Integration, Application Modernization

Data & Analytics: PostgreSQL, SQL Server, MySQL, Data Pipelines, Master Data Management, Operational Data Stores, Data Governance, Power BI, Apache Superset, Forecasting Support, Risk & Anomaly Analysis

Engineering & Delivery: C#, ASP.NET Core, .NET Framework, Entity Framework, React.js, Node.js, JavaScript, HTML5, CSS3, Agile, SDLC, QA, Git, Docker, Jenkins, CI/CD, Jira, Postman

Security & Operations: RBAC, API Security, Secure Coding, Audit Logs, Data Protection, Backup & Recovery Governance, Monitoring, Release Governance, Service Governance, Technical Documentation

EDUCATION & LANGUAGES

Education	B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University 2003-2007
Languages	Arabic - Native English - Professional Working Proficiency
International Experience	Muscat, Oman May 2016 - October 2020
