

EXECUTIVE TECHNOLOGY PORTFOLIO

Mahmoud Salama

Technology leadership built on hands-on engineering depth.

Technology Leadership • Digital Transformation • Enterprise Platforms

Cairo, Egypt | ma7moud.salamaaa@gmail.com | +20 122 015 6077

CAREER AT A GLANCE

18+

YEARS

SUPPORT + CX

Build. Lead. Operate. Transform.

From software engineering to national-scale technology leadership - without losing technical fluency.

A career spanning .NET engineering, e-government delivery, enterprise architecture, national platforms, data and integration, customer service, technical support and digital transformation across Egypt and Oman.

BUILD

Software, platforms, databases, APIs, integrations and reusable foundations.

LEAD

Teams, roadmaps, delivery governance, architecture, vendors and stakeholders.

OPERATE

Customer service, technical support, incidents, training, adoption and continuity.

TRANSFORM

Processes, enterprise platforms, data, governance and institutional capability.

National technology leadership in numbers

DIRECT REPORTS

current reporting structure

~20

SUPPORT + CUSTOMER SERVICE

inside the 54-person organization

ONE OPERATING SYSTEM

Strategy + architecture + delivery +
service operations + data +
governance.

Progressively wider ownership

Technology as an enterprise operating capability

Current executive scope

- Technology strategy & digital-transformation roadmaps
- Enterprise & solution architecture
- SDLC, portfolio and release governance
- Data governance, reporting & integrations
- Security controls, continuity & technology risk
- Vendor, stakeholder & executive KPI management

NATIONAL PLATFORMS

Procurement and medical-supply platforms.

DYNAMICS 365

Enterprise data and workflow integration.

HTA DIGITISATION

Workflow digitisation and evidence processes.

TRACK & TRACE

Multi-agency governance and interoperability.

ANALYTICS + REPORTING

Reporting architecture, reconciliation, data quality, operational analytics and executive evidence.

Service ownership is a core leadership responsibility.

Not a side note. A ~20-person operation inside the 54-person technology organization - connecting users, operations and engineering.

~20

PEOPLE

support/customer-service operation

National

COVERAGE

enterprise platform users

End-to-end

OWNERSHIP

case intake through adoption

SERVICE DESK / CALL CENTER

Technical + functional support, CRM cases, access/data and integration issues.

ESCALATION + RCA

Incident escalation, engineering coordination, root-cause and repeatable procedures.

ONBOARDING + TRAINING

Nationwide onboarding, training, knowledge transfer and adoption support.

CONTINUOUS IMPROVEMENT

Feedback loops, service governance and operational improvement.

Architecture + delivery + reliability

Governance • Security • Risk • AI-enabled work

ARCHITECTURE

Enterprise / solution architecture, workflow, RBAC, integration and data.

DATA + INTEGRATION

APIs, database design, master data, quality and interoperability.

ENTERPRISE TECHNOLOGY

DELIVERY

Requirements, SDLC, QA/UAT, release readiness and stabilization.

SERVICE RELIABILITY

Support, incident/RCA, release, continuity, training and adoption.

Government platforms - leadership + hands-on delivery

10+**DEVELOPERS**

team led

15+**PLATFORMS**

government / enterprise

~1M**PORTAL USERS**

Educational Portal context

EMPLOYER / CLIENT BOUNDARY

Integral Solutions LLC was the employer;
ministries and agencies were client assignments.

Educational Portal

Analysis, application/database development, reporting, testing, rollout and support.

Maktabi / Morasalat

Correspondence lifecycle, routing, workflows, reports, database, testing and deployment.

Recruitment System

End-to-end technical ownership; associated with the Sultan Qaboos Award.

Al Wahat

Royal Court Affairs - membership, reservations, approvals and events.

Reusable engineering at portfolio scale

6**DEVELOPERS**

confirmed team size

150+**ENGAGEMENTS**

major & mid-sized; small excluded

Multiple**AWARDS**

Yashfeen named example

Build once. Adapt intelligently.

Reusable .NET CMS/publishing and conference-management foundations supported delivery across government, healthcare, education, events and commercial sectors.

YASHFEEN

Healthcare portal delivered independently and recognized in an ITIDA competition.

CONFERENCE PLATFORM

Registration, schedules, speakers, evaluation, certificates and reporting.

GOVERNMENT

MOHP, MSAD, public-service and institutional initiatives.

COMMERCIAL

Electrolux multi-country websites and numerous business systems.

Executive breadth backed by technical depth

STRATEGY + GOVERNANCE

Roadmaps, portfolios, operating models, stakeholders, controls and risk.

ENTERPRISE ARCHITECTURE

Configurable platforms, solution architecture, workflow/RBAC and data.

ENGINEERING + DELIVERY

C#/.NET, APIs, SQL, SDLC, QA/UAT, release and production.

DATA + INTEGRATION

Database design, reporting, REST/SOAP, master data and interoperability.

SERVICE OPERATIONS

Customer service, support, incidents, training, adoption and continuity.

AI-ENABLED WORK

Generative AI, prompt engineering, coding, analysis, SQL and prototyping.

Institutional contribution beyond platform delivery

B-READY / EGYPT

Egypt-side digital-transformation committee contribution supporting the World Bank Group B-READY assessment.

TRACK & TRACE

Multi-agency governance/interoperability contribution involving national stakeholders.

BLOOD OPERATIONS

Governance and oversight contribution at national level.

RECOGNITION

Sultan Qaboos Award

Associated with the Oman Ministry of Education Recruitment System.

Yashfeen / ITIDA

Confirmed named award-recognized Keyframe solution.

Engineering depth. Executive accountability.

A technology leader who can connect strategy to architecture, architecture to delivery, delivery to operations, and operations back to the user.
