PROFESSIONAL PROFILE

Technology executive and software-engineering leader with 18+ years of experience spanning hands-on C#.NET development, enterprise applications, solution and enterprise architecture, digital transformation, information-systems leadership, and large-scale service delivery across Egypt and the GCC. Leads a 54-person technology organization across four major functions with seven direct reports. Combines engineering depth with operating-model design, portfolio governance and third-party coordination, modernization, data and integration, service operations, risk/continuity oversight, and executive stakeholder leadership.

CORE LEADERSHIP AREAS

Technology Strategy & Operating Model | Enterprise Architecture & Systems | Portfolio Governance & Third-Party Coordination | Software & Platform Leadership | Data, Integration & Analytics | Service Management | Risk, Security & Continuity Governance

SELECTED CAREER IMPACT

- Lead a 54-person technology organization across four major functions with 7 direct reports.
- Own a unified national procurement platform serving ~60K users, ~90K facilities/entities, ~300 suppliers, and ~1M transactions/month.
- Lead a ~20-person technical support and customer-service operation with service desk, internal call-center services, CRM-supported case handling, SLAs, onboarding, and training.
- **Delivered national-scale government platforms in Oman, including the ~1M-user Educational Portal and the Ministry of Education Recruitment System.**
- **Built, delivered or governed roughly 150 major and smaller websites, portals, enterprise applications and digital-service engagements across public and commercial sectors.**

PROFESSIONAL EXPERIENCE

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 05/2025 - Present

Head of the Central Administration for Information Systems & Digital Transformation

Scope: Technology Strategy | Enterprise Systems & Architecture | Portfolio, Risk, Service Governance & Third-Party Coordination

- Lead a 54-person technology organization across four major functions with seven direct reports, spanning software development, systems/applications, business analysis, QA/reporting, technical support, customer service, architecture, data, and delivery governance.
- Own the evolution of a unified national enterprise procurement platform covering demand consolidation, approvals, tendering, supplier evaluation, award/contracting, purchase orders, delivery/receipt, reporting, auditability, and support at national scale.
- Govern enterprise and solution architecture across multi-tenant, configurable, modular, and API-first platform capabilities, including RBAC, workflow/rules, document management, audit trails, CMS/electronic publishing, data quality, integration patterns, security, performance, and resilience.
- **Direct end-to-end SDLC, portfolio delivery, architecture reviews, release governance, production readiness, incident/RCA practices, third-party coordination, change management, and continuous modernization.**
- Lead service operations for ~60K users through a ~20-person support/customer-service function covering service desk, internal call-center services, CRM-supported case handling, SLAs/escalation, onboarding, training, feedback, and adoption.
- **Drive technology strategy, operating-model improvements, engineering standards, data governance, security controls, executive reporting, technology KPIs, and enterprise AI adoption strategy with controlled, validated use of AI-assisted tools and clear technology accountability.**

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Directed applications, systems, technical support, and customer-service delivery across procurement, medical-supply, inventory, reporting, CMS/publishing, enterprise workflows, and stakeholder-service capabilities.
- Built and modernized configurable digital workflows that replaced large volumes of manual, paper-, Excel-, and email-based processes, improving turnaround, traceability, governance, and operational efficiency.
- Strengthened engineering and service delivery through clearer ownership, technical standards, design/code reviews, QA/release gates, documentation, incident/RCA practices, knowledge transfer, and repeatable support procedures.
- Coordinated complex multi-agency initiatives and nationwide onboarding, training, support, issue escalation, feedback, and adoption across public-sector stakeholders.

Senior Full-Stack Developer | Government Client Assignments

- Worked hands-on on Oman Ministry of Education's national Educational Portal, serving approximately 1 million users, contributing across application development, database/reporting work, testing, deployment, rollout and production support.
- Contributed extensively to the large-scale Maktabi / Morasalat electronic correspondence platform for Omani government entities, working hands-on on correspondence creation, routing, forwarding and tracking, reports, database components, functional testing, defect investigation, production deployment and release/application support.
- Contributed substantially to Ministry of Education Recruitment, International Schools, Crisis and Asset Management systems; also worked across Ministry of Agriculture portal delivery spanning development, integrations, reporting, deployment, training and support.
- Worked across full-cycle government-system delivery using C#.NET, ASP.NET, SQL Server/MySQL, JavaScript, REST/SOAP services, workflow/RBAC, reporting, integrations, testing, deployment and production-support practices.

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Senior Full-Stack Developer | Later Development Team Lead

- Delivered across roughly 150 major and smaller web, portal and enterprise-system engagements spanning government, healthcare, education, construction, automotive, events and commercial sectors, with substantial hands-on and independent end-to-end implementation.
- Delivered public-sector and enterprise solutions spanning Ministry of Health work, conference platforms, education and HR systems, support desks and integrations, covering analysis, C#.NET development, databases, reporting, testing, deployment and support.
- Built and customized CMS/electronic-publishing solutions, including a custom .NET CMS plus hands-on Umbraco and Kentico work, with multilingual/RTL publishing, workflows, versioning, archiving, permissions, search, SEO, analytics, and integrations.

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening; also built secure internal ASP.NET/SQL Server applications.

LEADERSHIP APPOINTMENTS & GOVERNANCE CONTRIBUTIONS

- Digital Transformation Committee Member - World Bank Group B-READY Egypt Assessment (2025-2026): contributed technical input supporting private-sector digitization, public-service modernization, and national competitiveness.
- Board Member - National Blood Operations Oversight (2021-2024), appointed by Egypt's Minister of Health: oversaw digital governance, data integrity, and technology standards for the national blood-supply system.
- Governance Lead - National Pharmaceutical Track & Trace Program (2021-2024): shaped the vision, governance framework, compliance model, stakeholder coordination, and technology roadmap across UPA, EDA, and Ministry of Health stakeholders.

SELECTED ENTERPRISE PLATFORMS & PROGRAMS**UPA Unified Enterprise Procurement Platform**

End-to-end national procurement lifecycle with configurable workflows, auditability, supplier services, reporting, support, and shared enterprise capabilities at ~1M transactions/month.

Shared Platform & Service Capabilities

RBAC, workflow/rules, notifications, DMS/archiving, audit trails, search, reporting/export, CMS/electronic publishing, customer service/support, REST/SOAP, JSON, database/file integrations, and external e-signature integration where required.

Oman & Egypt Government Platforms

Oman Educational Portal, Recruitment, International Schools, Crisis, Asset and Maktabi/Morasalat Electronic Correspondence, Ministry of Agriculture portal, and Egypt Ministry of Health portal.

TECHNICAL & MANAGEMENT CAPABILITIES

Executive & Governance: Technology Strategy, IT Operating Model, Organization Design, Portfolio/Roadmaps, Executive Stakeholders, Third-Party Coordination, Service Governance, Risk/Controls, Business Continuity/DR Oversight

Architecture & Engineering: Enterprise/Solution Architecture, N-Tier/Layered, Modular Monolith, Distributed Integration Patterns, API-First, Multi-Tenant, Configurable/Metadata-Driven Platforms, C#, ASP.NET Web Forms/Core/Web API, .NET, React, JavaScript, SQL

Enterprise Platforms & Operations: E-Procurement, Workflow/BPM, CMS/Electronic Publishing, DMS/Archiving, RBAC/Audit, Technical Support & Customer Service, Service Desk/Call Center, SLA/Incident/RCA, Training/Adoption, Data Governance & Reporting Architecture

Tools & AI: PostgreSQL, SQL Server, MySQL, Redis, Git/TFS, Jenkins, Postman, Swagger/OpenAPI, Visual Studio/VS Code/Rider, Docker (working exposure), Generative AI, Prompt Engineering, AI-Assisted Development/Analysis, No-Code Prototyping

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
