PROFESSIONAL PROFILE

Digital transformation and technology leader with 18+ years of experience redesigning processes, modernizing enterprise applications, digitizing high-volume government workflows, and leading software, data, integration, support, and adoption teams across Egypt and the GCC. Combines hands-on software and architecture credibility with current-state/target-state analysis, business-process redesign, platform strategy, change enablement, data governance, and measurable service improvement.

CORE LEADERSHIP AREAS

Transformation Strategy & Roadmaps | As-Is / To-Be & Process Redesign | Enterprise Platform Modernization | Program & Portfolio Governance | Change & Adoption | Data-Driven Transformation | Outcome & Service Improvement

SELECTED CAREER IMPACT

- Led transformation across a unified national platform serving ~60K users and ~90K facilities/entities.
- Digitized end-to-end procurement workflows processing ~1M transactions/month and replacing large volumes of paper-, Excel-, and email-based processes.
- **Led a 54-person technology organization across four functions with 7 direct reports.**
- **Delivered national-scale Oman government platforms, including an approximately 1M-user Educational Portal and the Ministry of Education Recruitment System.**

PROFESSIONAL EXPERIENCE

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 05/2025 - Present

Head of the Central Administration for Information Systems & Digital Transformation

Scope: Digital Transformation Strategy | Enterprise Modernization | Program Governance, Change & Adoption

- Lead transformation strategy and roadmap execution for a unified national procurement platform spanning demand, approvals, tendering, supplier evaluation, contracting, purchase orders, delivery/receipt, reporting, auditability, and support.
- Translate current-state pain points and stakeholder needs into target-state processes, prioritized workstreams, platform capabilities, data/integration requirements, governance models, and adoption plans.
- Direct cross-functional transformation across a 54-person technology organization, aligning business analysis, architecture, engineering, QA/reporting, data, support/customer service, and delivery governance.
- Drive process digitization through configurable workflows, shared services, role/data-level access, documents/archiving, CMS/electronic publishing, reporting, and integrations while maintaining security, resilience, and operational ownership.
- Lead change enablement through nationwide onboarding, training, support, CRM/service feedback, issue escalation, service-readiness controls, and continuous improvement; use operational evidence to prioritize further transformation.
- Advance data governance, executive reporting, technology KPIs, and enterprise AI adoption strategy as part of broader institutional modernization.

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Modernized procurement, medical-supply, inventory, reporting, CMS/publishing, workflow, and stakeholder-service processes while maintaining operational continuity.
- Converted high-volume manual, paper-, Excel-, and email-based processes into configurable digital workflows with stronger traceability, consistency, approvals, auditability, and governance.
- Improved adoption and delivery readiness through stakeholder engagement, training, support, documentation, QA/release controls, escalation, and structured feedback loops.
- Coordinated multi-agency transformation initiatives, aligning requirements, technology decisions, data, compliance, rollout, and operational readiness.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Senior Full-Stack Developer | Government Client Assignments

- **Worked hands-on on Oman Ministry of Education's national Educational Portal, serving approximately 1 million users, contributing across application development, database/reporting work, testing, deployment, rollout and production support.**
- **Contributed extensively to the large-scale Maktabi / Morasalat electronic correspondence platform for Omani government entities, working hands-on on correspondence creation, routing, forwarding and tracking, reports, database components, functional testing, defect investigation, production deployment and release/application support.**
- **Delivered the Ministry of Education Recruitment System and contributed to International Schools, Crisis and Asset Management systems; also designed and delivered the Ministry of Agriculture portal across development, integrations, reporting, deployment, training and support.**

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Senior Full-Stack Developer | Later Development Team Lead

- **Delivered across roughly 150 major and smaller web, portal and enterprise-system engagements spanning government, healthcare, education, construction, automotive, events and commercial sectors, with substantial hands-on and independent end-to-end implementation.**
- **Delivered public-sector and enterprise solutions spanning Ministry of Health work, conference platforms, education and HR systems, support desks and integrations, covering analysis, C#.NET development, databases, reporting, testing, deployment and support.**

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening; also built secure internal ASP.NET/SQL Server applications.

LEADERSHIP APPOINTMENTS & GOVERNANCE CONTRIBUTIONS

- Digital Transformation Committee Member - World Bank Group B-READY Egypt Assessment (2025-2026): contributed technical input supporting private-sector digitization, public-service modernization, and national competitiveness.
- Board Member - National Blood Operations Oversight (2021-2024), appointed by Egypt's Minister of Health: oversaw digital governance, data integrity, and technology standards for the national blood-supply system.

TECHNICAL & MANAGEMENT CAPABILITIES

Transformation: Digital Strategy, Transformation Roadmaps, As-Is/To-Be, Process Redesign, Operating Model, Program/Portfolio Governance, Outcome & Service Improvement, Change/Adoption

Platforms & Data: Enterprise Platforms, Workflow/BPM, CMS/DMS, Data Governance, MDM/Reference Data, Data Quality, Reporting Architecture, REST/SOAP Integrations, RBAC/Audit

Delivery & Governance: Requirements, Architecture Reviews, QA/UAT, Release/Go-Live, Training, Support, SLA/RCA, Third-Party Coordination, Risk/Controls, Business Continuity/DR Oversight

Technology & AI: C#.NET, ASP.NET, React/JavaScript, SQL Server/PostgreSQL/MySQL, Git/TFS, Jenkins, Postman/Swagger, Generative AI, Prompt Engineering, AI-Assisted Analysis/Documentation/SQL/Prototyping

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
