PROFESSIONAL PROFILE

Enterprise and solution architecture leader with 18+ years of experience connecting business capabilities, operating priorities, enterprise applications, data, integration, security, and delivery into practical target-state roadmaps. Combines hands-on C#/ .NET engineering with architecture governance, platform modernization, multi-tenant/configurable design, shared services, API/integration standards, data governance, NFRs, and portfolio-level technology decision support across large government ecosystems in Egypt and Oman.

CORE LEADERSHIP AREAS

Enterprise Architecture | Capability & Target-State Alignment | Architecture Principles & Standards | Application Portfolio | Integration & API Architecture | Data Architecture & Governance | Security / NFRs / Resilience | Architecture Governance

SELECTED CAREER IMPACT

- Architecture governance for a unified national platform serving ~60K users and ~90K facilities/entities.
- Platform and data environments handling ~1M transactions/month with databases up to ~400GB and millions of records.
- Designed and delivered national-scale government platforms in Oman, including an approximately 1M-user Educational Portal.
- **Delivered or governed roughly 150 major and smaller digital-solution engagements across public and commercial sectors.**

PROFESSIONAL EXPERIENCE

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 05/2025 - Present

Head of the Central Administration for Information Systems & Digital Transformation

Scope: Enterprise Architecture | Target-State Roadmaps | Platform, Data, Integration & Governance

- Translate enterprise priorities and business capabilities into target-state application, data, integration, security, and platform roadmaps for a unified national procurement environment.
- Govern architecture across multi-tenant, configurable, modular, and API-first capabilities, including shared platform services, RBAC, workflow/rules, DMS/archiving, auditability, CMS/electronic publishing, reporting, and support services.
- **Define and review architecture principles, application boundaries, integration patterns, API contracts, data mappings, dependency decisions, NFRs, security controls, performance, resilience, operational monitoring/visibility, and service-transition expectations.**
- Lead architecture reviews and modernization decisions covering reuse versus customization, compatibility, deprecation, technical debt, data governance, operational impact, and phased evolution without disrupting critical services.
- **Align business stakeholders, engineering, analysis, QA, infrastructure/security, support, and third parties around architecture decisions, ownership, standards, and implementation guardrails.**

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Applied architecture and systems-analysis practices to modernize procurement, medical-supply, inventory, reporting, CMS/publishing, and enterprise workflow capabilities.
- Converted manual processes into configurable digital workflows with clearer rules, approvals, auditability, role/data-level access, data controls, and support ownership.
- Established stronger technical standards, design reviews, documentation, integration discipline, QA/release gates, and production-support practices.
- Coordinated architecture, data, compliance, rollout, and operational-readiness decisions across multi-agency national initiatives.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Senior Full-Stack Developer | Government Client Assignments

- **Worked hands-on on Oman Ministry of Education's national Educational Portal, serving approximately 1 million users, contributing across application development, database/reporting work, testing, deployment, rollout and production support.**
- **Contributed extensively to the large-scale Maktabi / Morasalat electronic correspondence platform for Omani government entities, working hands-on on correspondence creation, routing, forwarding and tracking, reports, database components, functional testing, defect investigation, production deployment and release/application support.**
- **Delivered the Ministry of Education Recruitment System and contributed to International Schools, Crisis and Asset Management systems; also designed and delivered the Ministry of Agriculture portal across architecture, development, integrations, reporting, deployment, training and support.**

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Senior Full-Stack Developer | Later Development Team Lead

- **Delivered across roughly 150 major and smaller web, portal and enterprise-system engagements spanning government, healthcare, education, construction, automotive, events and commercial sectors, with substantial hands-on and independent end-to-end implementation.**
- **Delivered public-sector and enterprise solutions spanning Ministry of Health work, conference platforms, education and HR systems, support desks and integrations, covering analysis, C#.NET development, databases, reporting, testing, deployment and support.**
- Built and customized CMS/electronic-publishing solutions, including a custom .NET CMS plus hands-on Umbraco and Kentico work, with multilingual/RTL publishing, workflows, versioning, archiving, permissions, search, SEO, analytics, and integrations.

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening; also built secure internal ASP.NET/SQL Server applications.

LEADERSHIP APPOINTMENTS & GOVERNANCE CONTRIBUTIONS

- Digital Transformation Committee Member - World Bank Group B-READY Egypt Assessment (2025-2026): contributed technical input supporting private-sector digitization, public-service modernization, and national competitiveness.
- Board Member - National Blood Operations Oversight (2021-2024), appointed by Egypt's Minister of Health: oversaw digital governance, data integrity, and technology standards for the national blood-supply system.

TECHNICAL & MANAGEMENT CAPABILITIES

Enterprise Architecture: Capability Alignment, Current/Target State, Architecture Principles, Standards, Reusable Architecture Patterns, Application Portfolio/Rationalization, Architecture Review & Governance

Solution & Platform Architecture: N-Tier/Layered, Modular Monolith, API-First, Multi-Tenant, Configurable/Metadata-Driven Platforms, Shared Services, Workflow/RBAC/DMS/CMS, integration-centric architecture patterns

Data, Integration & NFRs: Data Architecture/Governance, MDM/Reference Data, Data Quality, REST/SOAP, JSON, API Contracts, Security, Performance, Resilience, Operational Monitoring / Visibility, Continuity/DR Oversight

Engineering Foundation: C#, ASP.NET Web Forms/Core/Web API, .NET, React/JavaScript, SQL Server/PostgreSQL/MySQL, Git/TFS, Jenkins, Postman/Swagger

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
