PROFESSIONAL PROFILE

IT and digital-operations leader with 18+ years of experience across enterprise applications, service management, technical support, customer service, software engineering, architecture, data/integration, security governance, and business continuity. Leads multi-function technology teams and national-scale operational services, with management oversight extending across applications, infrastructure and information-security functions while maintaining strongest hands-on depth in enterprise systems and software delivery.

CORE LEADERSHIP AREAS

IT Operations & Service Management | Enterprise Applications | Infrastructure & Security Oversight | Service Desk & Support | Incident / Problem / Change | Business Continuity & DR Oversight | SLA Governance & Third-Party Coordination

SELECTED CAREER IMPACT

- 54-person technology organization across four functions with 7 direct reports.
- National platform serving ~60K users, ~90K facilities/entities, ~300 suppliers, and ~1M transactions/month.
- ~20-person support/customer-service operation with service desk, call-center, CRM case handling, onboarding, and training.
- Large-scale government service delivery across Egypt and Oman, including an approximately 1M-user education portal.

PROFESSIONAL EXPERIENCE

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 05/2025 - Present

Head of the Central Administration for Information Systems & Digital Transformation

Scope: IT Operations | Enterprise Systems | Support, Security, Continuity & Service Governance

- Lead technology operations across a 54-person organization with seven direct reports, aligning applications, infrastructure, information security, support/customer service, architecture, data, QA/reporting, and delivery governance through function owners.
- Own service performance and operational governance for a national enterprise platform serving ~60K users, including service ownership, incident escalation, RCA, change/release controls, support procedures, knowledge transfer, and operational readiness.
- Lead a ~20-person technical support and customer-service function through service desk, internal call-center services, CRM-supported case handling, SLA/escalation management, onboarding, training, feedback, and adoption improvement.
- **Govern production resilience, access/security controls, backup/recovery and continuity requirements, architecture standards, application dependencies, third-party delivery coordination, and cross-team service transitions through accountable infrastructure and security function owners.**
- Direct application modernization, integration, data/reporting services, workflow automation, CMS/DMS capabilities, and continuous service improvement across high-volume government operations.

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Directed applications, systems, technical support, and customer-service operations across procurement, medical-supply, inventory, reporting, CMS/publishing, enterprise workflows, and stakeholder services.
- Improved service consistency through clearer ownership, standardized procedures, documentation, QA/release gates, incident/RCA practices, escalation paths, and knowledge transfer.
- Led nationwide onboarding, user support, training, issue escalation, feedback, and adoption while coordinating requirements and rollout across government stakeholders.
- Modernized configurable digital workflows that reduced reliance on manual, paper-, Excel-, and email-based processes.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Senior Full-Stack Developer | Government Client Assignments

- **Worked hands-on on Oman Ministry of Education's national Educational Portal, serving approximately 1 million users, contributing across application development, database/reporting work, testing, deployment, rollout and production support.**
- **Worked extensively on the Maktabi / Morasalat electronic correspondence platform for Omani government entities, contributing to correspondence workflows, operational reporting and database components, functional testing, production deployments, release implementation and ongoing application support.**
- **Delivered the Ministry of Education Recruitment System and contributed to International Schools, Crisis and Asset Management systems; also designed and delivered the Ministry of Agriculture portal across development, integrations, reporting, deployment, training and support. Worked hands-on through full-cycle delivery using C#/I.NET, ASP.NET, SQL Server/MySQL, JavaScript, REST/SOAP services, workflow/RBAC, CMS and production-support practices.**

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Senior Full-Stack Developer | Later Development Team Lead

- **Delivered across roughly 150 major and smaller web, portal and enterprise-system engagements spanning government, healthcare, education, construction, automotive, events and commercial sectors, with substantial hands-on and independent end-to-end implementation.**
- **Delivered public-sector and enterprise solutions spanning Ministry of Health work, conference platforms, education and HR systems, support desks and integrations, covering analysis, C#/I.NET development, databases, reporting, testing, deployment and support.**

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening; also built secure internal ASP.NET/SQL Server applications.

LEADERSHIP APPOINTMENTS & GOVERNANCE CONTRIBUTIONS

- Digital Transformation Committee Member - World Bank Group B-READY Egypt Assessment (2025-2026): contributed technical input supporting private-sector digitization, public-service modernization, and national competitiveness.
- Board Member - National Blood Operations Oversight (2021-2024), appointed by Egypt's Minister of Health: oversaw digital governance, data integrity, and technology standards for the national blood-supply system.
