PROFESSIONAL PROFILE

Technology leader with 18+ years of experience, including extensive business and systems analysis across complex government and enterprise environments. Translates business needs into structured requirements, target processes, business rules, data/integration specifications, acceptance criteria, and implementable digital solutions. Brings deep delivery context from software engineering, architecture, information systems, and transformation leadership, with hands-on practice across discovery workshops, As-Is/To-Be analysis, process mapping, traceability, UAT, and stakeholder alignment.

CORE LEADERSHIP AREAS

Requirements Engineering | Discovery Workshops | As-Is / To-Be | Process Mapping & Redesign | Business Rules & Acceptance Criteria | Traceability | Data / Integration Mapping | UAT & Stakeholder Acceptance

SELECTED CAREER IMPACT

- Business and systems analysis across a national platform serving ~60K users and ~90K facilities/entities.
- Requirements and process redesign for high-volume workflows processing ~1M transactions/month.
- Delivered requirements-to-solution work across national government platforms in Egypt and Oman.
- **Roughly 150 major and smaller websites, portals, enterprise applications and electronic-system engagements delivered or supported across multiple sectors.**

PROFESSIONAL EXPERIENCE

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 05/2025 - Present

Head of the Central Administration for Information Systems & Digital Transformation

Scope: Business Analysis Leadership | Requirements, Process, Data, UAT & Delivery Alignment

- Lead business-analysis and requirements governance across a unified national procurement platform covering demand, approvals, tendering, supplier evaluation, contracts, purchase orders, delivery/receipt, reporting, support, and auditability.
- Facilitate discovery and stakeholder alignment to capture business objectives, pain points, current-state processes, target-state workflows, business rules, roles/permissions, exceptions, data needs, and acceptance criteria.
- Translate requirements into structured process flows, user stories/use cases, functional specifications, data mappings, interface/API requirements, reports/KPIs, traceability, and prioritized delivery scope.
- Coordinate analysts, architects, engineering, QA, data, support, and business owners through design clarification, change control, UAT, defect triage, readiness, rollout, feedback, and continuous improvement.
- Use SQL/data analysis and production evidence to validate assumptions, investigate issues, reconcile requirements with actual system behavior, and support better decisions.

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Directed requirements and application analysis across procurement, medical-supply, inventory, reporting, CMS/publishing, workflows, support, and stakeholder services.
- Mapped manual, paper-, Excel-, and email-based processes and redesigned them into configurable digital workflows with clearer rules, approvals, traceability, data controls, and auditability.
- Aligned multi-agency stakeholders on requirements, data, compliance, rollout, training, and operational readiness for national initiatives.
- Led UAT/readiness, user training, support feedback, issue escalation, and adoption loops to refine requirements and prioritize improvements.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Senior Full-Stack Developer | Government Client Assignments

- Worked directly with government stakeholders to understand requirements and translate them into usable web and enterprise-system capabilities for the Oman Ministry of Education and other public-sector clients.
- **Contributed extensively to the large-scale Maktabi / Morasalat electronic correspondence platform for Omani government entities, working hands-on on correspondence creation, routing, forwarding and tracking, reports, database components, functional testing, defect investigation, production deployment and release/application support.**
- **Applied the same business-to-technology bridge across the ~1M-user Educational Portal, the Ministry of Education Recruitment System, International Schools, Crisis and Asset Management systems, and the Ministry of Agriculture portal, spanning design clarification, testing, deployment, training and support.**

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Senior Full-Stack Developer | Later Development Team Lead

- **Delivered across roughly 150 major and smaller web, portal and enterprise-system engagements spanning government, healthcare, education, construction, automotive, events and commercial sectors, with substantial hands-on and independent end-to-end implementation.**
- **Translated client requirements into working portals, CMS, workflow, reporting, access-control and integration solutions, frequently owning analysis through implementation, testing, deployment and support.**

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening; also built secure internal ASP.NET/SQL Server applications.

TECHNICAL & MANAGEMENT CAPABILITIES

Business Analysis: Requirements Elicitation, Workshops/Interviews, As-Is/To-Be, Process Mapping, Gap Analysis, User Stories/Use Cases, Functional Specifications, Business Rules, Acceptance Criteria, Traceability

Process & Data: BPMN/UML, Workflow Analysis, Data Mapping, Master/Reference Data, Data Quality, Reporting/KPIs, Integration/API Requirements, SQL Analysis, Reconciliation

Delivery & UAT: Backlog/Prioritization, Change Control, QA/UAT, Defect Triage, Release Readiness, Training/Adoption, Support Feedback, Stakeholder Acceptance

Tools & Technical Fluency: Jira, ClickUp, Notion, Trello, MS Project, SQL Server/PostgreSQL/MySQL, REST/SOAP, JSON, C#/ .NET background, Postman/Swagger, Generative AI for analysis/documentation

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
