PROFESSIONAL PROFILE

Software-development and delivery leader with 18+ years of experience progressing from hands-on Linux/web and full-stack C#/.NET engineering to development-team leadership, enterprise architecture, application modernization, QA/release governance, and executive technology management. Combines strong software credibility with capacity planning, design/code review, reusable platform practices, technical debt management, mentoring, CI/CD, production readiness, support feedback, and delivery governance across high-volume government and enterprise systems.

CORE LEADERSHIP AREAS

Engineering Leadership | SDLC & Delivery Governance | Application Architecture | Capacity & Estimation | Quality / QA / UAT | CI/CD & Release | Technical Debt & Modernization | Production Readiness

SELECTED CAREER IMPACT

- **Delivered or governed roughly 150 major and smaller websites, portals, enterprise applications and electronic-system engagements.**
- **Worked across full-cycle government-system delivery using C#/.NET, ASP.NET, SQL Server/MySQL, JavaScript, REST/SOAP services, workflow/RBAC, reporting, integrations, testing, deployment and production-support practices.**
- **Delivered an approximately 1M-user national Educational Portal in Oman and the Ministry of Education Recruitment System.**
- Modernized national-scale enterprise platforms serving ~60K users and processing ~1M transactions/month.

PROFESSIONAL EXPERIENCE

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 05/2025 - Present

Head of the Central Administration for Information Systems & Digital Transformation

Scope: Software Engineering | Architecture | SDLC, Quality, Release & Delivery Governance

- **Lead software-development and application-delivery governance within a 54-person technology organization, aligning engineering, systems/applications, analysis, QA/reporting, architecture, support, and delivery functions.**
- Direct the full SDLC from discovery and architecture through estimation, implementation, design/code review, QA/UAT, release, deployment, production readiness, support, RCA, and continuous modernization.
- Set architecture and engineering standards for modular, configurable, multi-tenant, API-first enterprise platform capabilities, reusable services, secure access, workflows, documents, auditability, data integration, and performance/resilience.
- Drive clearer ownership, coding/documentation standards, reusable components, technical debt prioritization, review gates, release discipline, and knowledge transfer to improve maintainability and delivery consistency.
- Use Git/TFS, Jenkins, Postman/Swagger and structured release practices; apply Generative AI and prompt engineering across coding, analysis, documentation, SQL, and prototyping while validating generated outputs.

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Directed application development and support across procurement, medical-supply, inventory, reporting, CMS/publishing, workflows, and stakeholder services.
- Built and modernized configurable digital workflows and enterprise applications, replacing manual processes while improving traceability, governance, and operational efficiency.
- Strengthened engineering practice through design/code reviews, QA/release gates, documentation, incident/RCA feedback, knowledge transfer, and repeatable support procedures.
- Coordinated multi-agency requirements, delivery, rollout, training, and operational readiness for national initiatives.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Senior Full-Stack Developer | Government Client Assignments

- **Worked hands-on on Oman Ministry of Education's national Educational Portal, serving approximately 1 million users, contributing across application development, database/reporting work, testing, deployment, rollout and production support.**
- **Contributed extensively to the large-scale Maktabi / Morasalat electronic correspondence platform for Omani government entities, working hands-on on correspondence creation, routing, forwarding and tracking, reports, database components, functional testing, defect investigation, production deployment and release/application support.**
- **Contributed substantially to Ministry of Education Recruitment, International Schools, Crisis and Asset Management systems; also worked across Ministry of Agriculture portal delivery spanning development, integrations, reporting, deployment, training and support.**
- **Worked across full-cycle government-system delivery using C#.NET, ASP.NET, SQL Server/MySQL, JavaScript, REST/SOAP services, workflow/RBAC, reporting, integrations, testing, deployment and production-support practices.**

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Senior Full-Stack Developer | Later Development Team Lead

- **Delivered across roughly 150 major and smaller web, portal and enterprise-system engagements spanning government, healthcare, education, construction, automotive, events and commercial sectors, with substantial hands-on and independent end-to-end implementation.**
- **Delivered public-sector and enterprise solutions spanning Ministry of Health work, conference platforms, education and HR systems, support desks and integrations, covering analysis, C#.NET development, databases, reporting, testing, deployment and support.**
- Built and customized CMS/electronic-publishing solutions, including a custom .NET CMS plus hands-on Umbraco and Kentico work, with multilingual/RTL publishing, workflows, versioning, archiving, permissions, search, SEO, analytics, and integrations.
- Mentored developers and established reusable components, coding/documentation standards, testing/release practices, performance/security reviews, and structured handover/support across a high-volume delivery portfolio.

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening; also built secure internal ASP.NET/SQL Server applications.

TECHNICAL & MANAGEMENT CAPABILITIES

Engineering: C#, .NET, ASP.NET Web Forms/Core/Web API, EF/ADO.NET/LINQ, JavaScript, React, jQuery, Kendo, HTML, SQL, REST/SOAP, JSON

Data & Platforms: SQL Server, PostgreSQL, MySQL, Redis, Workflow/BPM, CMS/Electronic Publishing, DMS/Archiving, RBAC/Audit, Configurable/Multi-Tenant Platforms

Delivery & Quality: Agile/Scrum/Hybrid, Estimation/Capacity, Design & Code Review, QA/UAT, CI/CD, Git/TFS, Jenkins, Release/Go-Live, Production Readiness, Incident/RCA, Technical Debt

Tools & AI: Visual Studio/VS Code/Rider, Postman, Swagger/OpenAPI, SSMS/DBeaver/DataGrip, Docker (working exposure), Generative AI, Prompt Engineering, AI-Assisted Coding/Analysis/Documentation/SQL/Prototyping

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
