PROFESSIONAL PROFILE

Solution architect and software-engineering leader with 18+ years of experience translating complex business requirements into secure, scalable, supportable enterprise solutions. Combines hands-on C#/.NET development with application architecture, API/integration design, data modeling and mapping, workflow/RBAC, CMS/DMS, configurable and multi-tenant platform patterns, security/NFRs, design review, QA/UAT, release, and production support across national-scale government environments.

CORE LEADERSHIP AREAS

Requirements-to-Solution Design | Application Architecture | API & Integration Architecture | Data Mapping & Contracts | Workflow / RBAC / DMS | Security & NFRs | Design Reviews | Release & Service Transition

SELECTED CAREER IMPACT

- Solution architecture for a national enterprise platform serving ~60K users and processing ~1M transactions/month.
- **Hands-on software delivery across C#/.NET, ASP.NET, SQL and JavaScript/React, with leadership and design oversight across REST/SOAP services, workflow, CMS and integration delivery.**
- National Educational Portal in Oman serving approximately 1 million users plus multiple government systems.
- **Roughly 150 major and smaller websites, portals, enterprise applications and electronic-system engagements delivered or supported.**

PROFESSIONAL EXPERIENCE

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 05/2025 - Present

Head of the Central Administration for Information Systems & Digital Transformation

Scope: Solution Architecture | Enterprise Applications | Integration, Data, Security & NFRs

- Design and govern solutions for a unified national procurement platform covering complex workflows, approvals, supplier services, documents, reporting, support, and auditability across ~60K users and ~90K facilities/entities.
- Translate requirements into application boundaries, data models/mappings, API contracts, integration flows, workflow/rules, RBAC, document/archiving, audit, notification, search, reporting, and CMS capabilities.
- **Apply modular, configurable, multi-tenant and API-first patterns while reviewing security, performance, scalability, resilience, operational monitoring/visibility, deployment, supportability, and continuity requirements.**
- **Lead solution/design reviews and technical decision-making across engineering, analysis, QA, data, infrastructure/security, support, and third parties from discovery through UAT, release, deployment, and service transition.**
- Balance reuse, customization, delivery speed, technical debt, compatibility, and operational impact to evolve the platform without disrupting critical services.

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Designed and modernized enterprise applications and configurable workflows across procurement, medical-supply, inventory, reporting, CMS/publishing, and stakeholder services.
- Strengthened solution quality through clearer technical standards, design/code reviews, integration discipline, QA/release gates, documentation, and production-support feedback.
- Coordinated requirements, data, compliance, rollout, training, and operational readiness across multi-agency national initiatives.
- Led nationwide support and adoption, using production evidence to refine workflows, applications, and service design.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Senior Full-Stack Developer | Government Client Assignments

- **Worked hands-on on Oman Ministry of Education's national Educational Portal, serving approximately 1 million users, contributing across application development, database/reporting work, testing, deployment, rollout and production support.**
- **Contributed extensively to the large-scale Maktabi / Morasalat electronic correspondence platform for Omani government entities, working hands-on on correspondence creation, routing, forwarding and tracking, reports, database components, functional testing, defect investigation, production deployment and release/application support.**
- **Delivered the Ministry of Education Recruitment System and contributed to International Schools, Crisis and Asset Management systems; also designed and delivered the Ministry of Agriculture portal across architecture, development, integrations, reporting, deployment, training and support.**
- **Worked across full-cycle government-system delivery using C#.NET, ASP.NET, SQL Server/MySQL, JavaScript, REST/SOAP services, workflow/RBAC, reporting, integrations, testing, deployment and production-support practices.**

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Senior Full-Stack Developer | Later Development Team Lead

- **Delivered across roughly 150 major and smaller web, portal and enterprise-system engagements spanning government, healthcare, education, construction, automotive, events and commercial sectors, with substantial hands-on and independent end-to-end implementation.**
- **Delivered public-sector and enterprise solutions spanning Ministry of Health work, conference platforms, education and HR systems, support desks and integrations, covering analysis, C#.NET development, databases, reporting, testing, deployment and support.**
- **Built and customized CMS/electronic-publishing solutions, including a custom .NET CMS plus hands-on Umbraco and Kentico work, with multilingual/RTL publishing, workflows, versioning, archiving, permissions, search, SEO, analytics, and integrations.**

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- **Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening; also built secure internal ASP.NET/SQL Server applications.**

TECHNICAL & MANAGEMENT CAPABILITIES

Architecture Patterns: N-Tier/Layered, Modular Monolith, API-First, Multi-Tenant, Configurable/Metadata-Driven Platforms, Shared Services, integration-centric and service-oriented patterns

Application & Integration: C#, .NET, ASP.NET Web Forms/Core/Web API, EF/ADO.NET/LINQ, React/JavaScript, REST/SOAP, JSON, API Contracts, Workflow/BPM, RBAC, CMS/DMS

Data & NFRs: SQL Server, PostgreSQL, MySQL, Redis, Data Mapping, MDM/Reference Data, Data Quality, Security, Performance, Scalability, Resilience, Operational Monitoring / Visibility, Supportability, Continuity/DR Oversight

Delivery Tools: Visual Studio/VS Code/Rider, Git/TFS, Jenkins, Postman, Swagger/OpenAPI, SSMS/DBBeaver/DataGrip, Docker (working exposure)

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
