PROFESSIONAL PROFILE

Senior technology leader with 18+ years of progressive experience from hands-on Linux/web and full-stack C#.NET development to engineering leadership, enterprise applications, enterprise/solution architecture, digital transformation, information systems, service delivery, and executive technology management across Egypt and the GCC. Leads a 54-person technology organization across four major functions with seven direct reports, combining software credibility with platform strategy, operating-model design, architecture governance, data/integration, support/customer service, modernization, security, quality, and executive stakeholder leadership.

CORE LEADERSHIP AREAS

Technology & Digital Strategy | IT / Information Systems Leadership | Software Development & Delivery | Enterprise & Solution Architecture | Data & Integration | Technical Programs | Service Governance | Portfolio Leadership & Third-Party Coordination

SELECTED CAREER IMPACT

- Lead a 54-person technology organization across four major functions with 7 direct reports.
- Own national-scale platform evolution for ~60K users, ~90K facilities/entities, ~300 suppliers, and ~1M transactions/month.
- Lead a ~20-person technical support/customer-service operation and end-to-end technology delivery from discovery through production support.
- Databases scale to ~400GB and millions of records across enterprise reporting, integration, and operational workloads.
- **Delivered and supported Oman government platforms including an approximately 1M-user Educational Portal, Recruitment, electronic correspondence, reporting and other public-sector services.**
- **Delivered or governed roughly 150 major and smaller websites, portals, enterprise applications and electronic-system engagements.**

PROFESSIONAL EXPERIENCE

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 05/2025 - Present

Head of the Central Administration for Information Systems & Digital Transformation

Scope: Technology Strategy | Information Systems | Software Delivery | Enterprise Architecture | Data & Integration | Programs & Governance

- Lead enterprise technology strategy and transformation for a unified national platform spanning end-to-end procurement, inventory/warehousing, supplier services, workflows, documents, CMS/publishing, data, reporting, technical support, customer service, and government operations.
- Direct a 54-person technology organization across four functions with seven direct reports, aligning software development, systems/applications, analysis, QA/reporting, support/customer service, architecture, data, and delivery governance.
- Own platform evolution for ~60K users, ~90K facilities/entities, ~300 suppliers and ~1M transactions/month, translating business priorities into roadmaps, architecture, modernization, service ownership, operational controls, and measurable outcomes.
- Govern enterprise/solution architecture across multi-tenant, configurable, modular, and API-first platform capabilities, including shared services, RBAC, workflow/rules, DMS/archiving, auditability, CMS/electronic publishing, data governance, security, performance, and resilience.
- Lead end-to-end SDLC and multi-program delivery from discovery, requirements and architecture through engineering, QA/UAT, release, deployment, adoption, support, RCA, change management, knowledge transfer, and continuous improvement.
- Lead a ~20-person technical support/customer-service operation and drive operating-model improvements, technology KPIs, risk/controls, executive reporting, and enterprise AI adoption strategy; use Generative AI and prompt engineering extensively across coding, analysis, documentation, SQL, and prototyping.

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt 10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Directed applications, systems, technical support, and customer-service delivery across procurement, medical-supply, inventory, reporting, CMS/publishing, workflow, and stakeholder-service capabilities.
- Built and modernized configurable digital workflows that replaced large volumes of manual, paper-, Excel-, and email-based processes, improving turnaround, data consistency, traceability, governance, and resource efficiency.
- Strengthened engineering and service delivery through clearer ownership, technical standards, design/code reviews, QA/release gates, documentation, incident/RCA practices, knowledge transfer, and repeatable support procedures.
- Coordinated complex multi-agency initiatives and nationwide onboarding, training, support, issue escalation, feedback, and adoption.

Senior Full-Stack Developer | Government Client Assignments

- Worked hands-on on Oman Ministry of Education's national Educational Portal, serving approximately 1 million users, contributing across application development, database/reporting work, testing, deployment, rollout and production support.
- Contributed extensively to Maktabi / Morasalat electronic correspondence, including workflows, reports, database components, testing, deployment, release and application support.
- Contributed substantially to Ministry of Education Recruitment, International Schools, Crisis and Asset Management systems; also worked across Ministry of Agriculture portal delivery spanning development, integrations, reporting, deployment, training and support.
- Worked across full-cycle government-system delivery using C#.NET, ASP.NET, SQL Server/MySQL, JavaScript, REST/SOAP services, workflow/RBAC, reporting, integrations, testing, deployment and production-support practices.

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Senior Full-Stack Developer | Later Development Team Lead

- Delivered across a portfolio of roughly 150 major and smaller web, portal and enterprise engagements across government and commercial sectors, with substantial hands-on and independent end-to-end implementation.
- Delivered public-sector portals and enterprise solutions spanning CMS, workflow, reporting, integrations, testing, deployment and support.
- Built and customized CMS/electronic-publishing solutions, including a custom .NET CMS plus hands-on Umbraco and Kentico work, with multilingual/RTL publishing, workflows, versioning, archiving, permissions, search, SEO, analytics, and integrations.
- Mentored developers and established reusable components, coding/documentation standards, testing/release practices, performance/security reviews, and structured handover/support across a high-volume delivery portfolio.

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening; also built secure internal ASP.NET/SQL Server applications.

LEADERSHIP APPOINTMENTS & GOVERNANCE CONTRIBUTIONS

- Digital Transformation Committee Member - World Bank Group B-READY Egypt Assessment (2025-2026): contributed technical input supporting private-sector digitization, public-service modernization, and national competitiveness.
- Board Member - National Blood Operations Oversight (2021-2024), appointed by Egypt's Minister of Health: oversaw digital governance, data integrity, and technology standards for the national blood-supply system.
- Governance Lead - National Pharmaceutical Track & Trace Program (2021-2024): shaped the vision, governance framework, compliance model, stakeholder coordination, and technology roadmap across UPA, EDA, and Ministry of Health stakeholders.

SELECTED ENTERPRISE PLATFORMS & PROGRAMS**UPA Unified Enterprise Procurement Platform**

Unified national platform covering the full procurement lifecycle from demand consolidation and approvals through tendering, supplier evaluation, award/contracting, purchase orders, delivery/receipt, reporting, support, and auditability.

Workflow, Governance & Service Operations

Configurable multi-level approvals, committees, evaluation, contracts, routing, escalation, SLA timers, maker-checker controls, audit history, role/data-level permissions, support, customer service, call-center operations, CRM case handling, training, and adoption.

Shared Platform, Data & Integration Services

Users/RBAC, workflow/rules, notifications, documents/archiving, audit trails, search, reporting/export, CMS/electronic publishing, REST/SOAP, JSON, database/file integrations, data governance, and external e-signature integration where required.

Oman & Egypt Government / Education Platforms

Oman Educational Portal (~1M users), Recruitment, International Schools Management, Crisis Management, Asset Management, Maktabi/Morasalat Electronic Correspondence, Ministry of Agriculture portal, and Egypt Ministry of Health portal.

TECHNICAL & MANAGEMENT CAPABILITIES

Strategy, Governance & Architecture: Technology Strategy, Digital Transformation, IT Operating Model/Organization Design, Portfolio/Roadmaps, Executive Stakeholders, Enterprise/Solution Architecture, Multi-Tenant/Configurable Platforms, API-First, Risk/Controls and NFRs

Engineering, Product & Delivery: C#, ASP.NET Web Forms/Core/Web API, .NET, EF/ADO.NET/LINQ, React/JavaScript, Kendo, SQL Server/PostgreSQL/MySQL, Workflow/BPM, CMS/DMS, Secure SDLC, Agile/Scrum/Hybrid, Requirements/BPMN/UML, QA/UAT, Release/Go-Live, Product Roadmaps/MVP

Service, Data & Integration: Technical Support/Customer Service, Service Desk/Call Center, SLA/RCA, Training/Adoption, Data Architecture/Governance, MDM, Data Quality, Reporting Architecture, REST/SOAP, JSON, API Contracts, External Integrations, Business Continuity/DR Oversight

Tools & AI: Visual Studio/VS Code/Rider, Git/TFS, Jenkins, Postman/Swagger, SSMS/DBeaver/DataGrip, Docker (working exposure), Generative AI, Prompt Engineering, AI-Assisted Coding/Analysis/Documentation/SQL/Prototyping, No-Code Solutions, Enterprise AI Adoption Strategy

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
