PROFESSIONAL SUMMARY

Technology and IT executive with 18+ years across Egypt and Oman, progressing from hands-on systems and software engineering to enterprise-wide technology leadership. Leads a national-scale multidisciplinary technology organization, owning technology strategy, operating-model evolution, enterprise platforms, service resilience, vendor governance and investment decisions across government and healthcare. Combines executive accountability with deep technical judgment to turn business priorities, regulatory requirements and operating constraints into reliable digital services and measurable outcomes.

CORE SKILLS

Technology Strategy & IT Operating Models | **IT Portfolio & Investment Governance** | Enterprise Platforms & Modernization | Organization & Capability Leadership | Vendor, Contract & Technology Governance | IT Service Management & Production Operations | Cybersecurity Governance, Risk & Controls | **Business Continuity & DR** | Data & AI Strategy | Build-vs-Buy / TCO | Executive Stakeholder Alignment

SELECTED EXECUTIVE IMPACT

- Scaled the technology organization from **24 to 54 people** and now lead it with **seven direct reports**, with accountability for an **EGP 150M annual IT budget** spanning enterprise applications, infrastructure, security, data, operations and digital transformation.
- Led the end-to-end re-architecture and replacement of the national MediQ platform in approximately six months with a fully in-house technology organization; MediQ, winner of the Pharma Awards 2026 - Digital Transformation Award, serves 38,000+ users, 11,000+ healthcare facilities and 2,000+ suppliers.
- Directed the completed **EGP 11M Microsoft Dynamics 365 integration** across procurement, supply, inventory, finance and reporting, governing process alignment, integration contracts, data mapping, testing, security, change control and production transition.
- Established **enterprise resilience** and production-readiness governance covering capacity planning, performance testing, monitoring/logging, **F5 BIG-IP** controls, PostgreSQL production/replica architecture, **DR** with **manual primary-to-DR failover**, **daily full database backups** and off-site backup/recovery.
- Own and govern the MediQ national digital ecosystem - core platform, E-Tender, E-Pharmacy, electronic inventory and mobile counting, medical-storage validation, digital budgeting, asset maintenance, Dynamics 365/integration services and data/analytics - aligning technology, cybersecurity, investment and operations to procurement, forecasting, resource allocation and supply-chain resilience.

PROFESSIONAL EXPERIENCE

Egyptian Authority for Unified Procurement & Medical Technology (UPA) | Cairo, Egypt Head of the Central Administration for Information Systems & Digital Transformation

05/2025 - Present

Scope: Technology Strategy | IT Operating Model | Enterprise Platforms | Service Operations | Security/Resilience | Portfolio & Vendor Governance

- Own **technology strategy**, portfolio direction and investment priorities across applications, data, integrations, infrastructure, security and digital services, with accountability for an **EGP 150M annual IT budget** and **multi-year modernization roadmaps**.
- Scaled the technology organization from **24 to 54 people** and now lead it with **seven direct reports** across software/applications, analysis, QA/reporting, DevOps, mobile, data, support/customer service and delivery governance.
- Govern the **enterprise technology portfolio** and platform lifecycle across procurement, supply, inventory, tendering, finance integration, analytics and connected digital services, balancing **value, reliability, scalability, security, continuity, cost** and government operating constraints.
- Lead technology-selection, **build-vs-buy** and vendor decisions with relevant technical teams, using architecture risk, capability fit, **TCO**, lifecycle cost and PoCs when needed; govern **technical acceptance** and production readiness for sourced solutions.
- Set enterprise integration and data-governance direction across a cross-government ecosystem spanning ECIC, MoH/HMIS, GAHAC, Blood Bank and GS1-connected services; led architecture and delivery, including confirmed production integrations with ECIC and Blood Bank, while retaining hands-on depth through personally developed production healthcare APIs.
- Own **service resilience** and production-readiness governance including capacity planning, performance/load testing, monitoring/logging, **incident escalation and RCA**, PostgreSQL production/replica architecture, Redis caching, containerized services, **F5 BIG-IP** controls, **DR** with **manual primary-to-DR failover**, daily full database backups and off-site backup/recovery.

- Translate legal, regulatory, **cybersecurity and governance requirements** into operating and technology controls including **least privilege**, RBAC, **segregation of duties**, audit trails, traceability, retention, data protection and controlled approvals.
- Present technology strategy, investment options, trade-offs, priorities and risks to senior leadership; provide technical assessment and solution direction to government and healthcare stakeholders, track value realization, and drive the architecture and delivery of a central data warehouse and phased AI capabilities.

Egyptian Authority for Unified Procurement & Medical Technology (UPA) | Cairo, Egypt

10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Directed **enterprise applications, technical support** and customer-service delivery while modernizing established .NET Framework/Telerik solutions toward ReactJS/Node.js services, C#/.NET APIs, PostgreSQL, Redis, Docker and Apache Superset without disrupting **operational continuity**.
- Strengthened **IT service and engineering governance** through ticket ownership, escalation, service KPIs, **incident/RCA** practices, architecture/design reviews, **QA/release gates**, documentation and knowledge transfer.
- Converted manual, paper- and spreadsheet-heavy processes into **governed digital workflows** with role-based access, multi-level approvals, validation, **audit trails**, reporting and clear operational ownership.
- Owned the **full service and solution lifecycle** across requirements, business analysis, solution architecture, engineering, integration/data mapping, QA/UAT, deployment, training, **production support** and continuous improvement.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Development Team Leader & Senior Full-Stack Developer

- Led **10+ developers** while remaining hands-on across **15+ Omani government platforms**, covering requirements, solution design, development, testing, deployment, releases and production support.
- Contributed extensively to Oman's National Educational Portal (~1M users), delivering LMS capabilities across courses/content, exams, attendance, RBAC, reporting and integrations; also contributed to Maktabi, the Sultan Qaboos Award-winning Ministry of Education Recruitment System, and Al Wahat Club Management System for the Royal Guard of Oman.
- Designed secure government workflows, reporting, database and integration components across C#/.NET, ASP.NET Web Forms, SQL Server and MySQL.

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Development Team Leader & Senior Full-Stack Developer

- Delivered or led **150+ major and mid-sized projects** across government, healthcare, education, construction, automotive, events and commercial sectors, excluding small projects; progressed from hands-on engineering to leading a six-person development team.
- Owned analysis, C#/.NET engineering, database/reporting design, testing, deployment and support across multilingual and RTL solutions, including the ITIDA-recognized Yashfeen healthcare solution.

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Built hands-on Linux systems expertise through Linux From Scratch, kernel modules, optimization and hardening, alongside secure ASP.NET/SQL Server application development.

TECHNOLOGY, SERVICE & OPERATIONS CAPABILITIES

Executive Governance: Technology strategy, IT operating models, portfolio and roadmaps, budget/investment prioritization, executive stakeholders, vendor and contract governance, TCO, risk and value realization.

Service & Operations: ITSM, service desk and support governance, service KPIs, incident/problem management, RCA, release/change governance, production readiness, monitoring/logging, capacity planning, continuity and disaster recovery.

Platforms, Security & Data: Enterprise/Solution Architecture, Microsoft Dynamics 365, REST/SOAP/GraphQL APIs, PostgreSQL, SQL Server, Redis, Docker, Kubernetes, F5 BIG-IP, RBAC, defense in depth, Power BI, Apache Superset and data governance.

Leadership & Delivery: Organization design and capability growth, multidisciplinary technology leadership, SDLC, QA/UAT, vendor management, stakeholder alignment, Agile/Waterfall delivery, CI/CD governance and AI-assisted engineering/analysis.

SELECTED EXECUTIVE & GOVERNANCE CONTRIBUTIONS

- **National Pharmaceutical Track & Trace Program** (2021-2024) - contributed to multi-agency governance, compliance and interoperability.
- **Board Member - National Blood Operations Oversight** (2021-2024), representing UPA and contributing to digital governance, data integrity and technology standards.
- Member - **Egypt Digital Transformation Committee** supporting the World Bank Group B-READY Assessment (2025-2026).

EDUCATION

B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic - Native | English - Professional Working Proficiency
