PROFESSIONAL PROFILE

Technology executive and software-engineering leader with 18+ years of experience spanning hands-on C#.NET development, enterprise applications, solution and enterprise architecture, digital transformation, information-systems leadership, and large-scale service delivery across Egypt and the GCC. Leads a 54-person technology organization across four major functions with seven direct reports. Combines engineering depth with operating-model design, portfolio governance and third-party coordination, modernization, data and integration, service operations, risk/continuity oversight, and executive stakeholder leadership.

CORE LEADERSHIP AREAS

IT & Technology Strategy | Technology Operating Model | Enterprise & Solution Architecture | Portfolio & SDLC Governance | Digital Transformation | Service Operations | Information Security Governance | IT Risk | Technology Vendor Management

SELECTED CAREER IMPACT

- Lead a 54-person technology organization across four major functions, strengthening architecture, delivery, service governance and executive accountability.
- Modernized core workflows within a national procurement ecosystem operating at ~1M transactions/month across ~60K users, ~90K facilities/entities and ~300 suppliers, replacing fragmented manual processes with governed digital services.
- Shaped governance and technology direction for national initiatives including Pharmaceutical Track & Trace, alongside multi-agency digital transformation and interoperability work.
- Led delivery across 15+ enterprise/e-government platforms in Oman, including the ~1M-user National Educational Portal and the Sultan Qaboos Award-winning Ministry of Education Recruitment System.
- Led hands-on delivery across 150+ major and mid-sized projects at Keyframe, including multiple award-winning digital solutions across government, healthcare, education and commercial sectors.

PROFESSIONAL EXPERIENCE

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt
05/2025 - Present

Head of the Central Administration for Information Systems & Digital Transformation

Scope: Technology Strategy | Enterprise Systems & Architecture | Portfolio, Risk, Service Governance & Third-Party Coordination

- Lead a 54-person technology organization across four major functions with seven direct reports spanning software, applications, analysis, QA/reporting, support/customer service, architecture, data and delivery governance.
- Own the evolution of a unified national enterprise procurement platform covering demand consolidation, approvals, tendering, supplier evaluation, award/contracting, purchase orders, delivery/receipt, reporting, auditability, and support at national scale.
- Govern enterprise/solution architecture for configurable, modular, API-first platforms covering RBAC, workflow/rules, DMS, auditability, data quality, integration, security, performance and resilience.
- Direct SDLC and portfolio delivery, architecture/release governance, production readiness, incident/RCA, technology vendor and third-party coordination, change management and modernization.
- Lead service operations for ~60K users through a ~20-person support/customer-service function covering service desk/call center, CRM case handling, SLAs, escalation, onboarding, training and adoption.
- Drive IT and technology strategy, technology operating model and engineering standards; strengthen data governance, information-security governance, IT risk controls, executive KPIs and controlled enterprise AI adoption.

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt
10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Directed applications, systems, technical support, and customer-service delivery across procurement, medical-supply, inventory, reporting, CMS/publishing, enterprise workflows, and stakeholder-service capabilities.
- Built and modernized configurable digital workflows that replaced large volumes of manual, paper-, Excel-, and email-based processes, improving turnaround, traceability, governance, and operational efficiency.
- Strengthened engineering and service delivery through clearer ownership, technical standards, design/code reviews, QA/release gates, documentation, incident/RCA practices, knowledge transfer, and repeatable support procedures.
- Coordinated complex multi-agency initiatives and nationwide onboarding, training, support, issue escalation, feedback, and adoption across public-sector stakeholders.

Development Team Leader & Senior Full-Stack Developer | Government Client Assignments

- Led a 10+ developer team while remaining hands-on across 15+ enterprise/e-government platforms; worked extensively on Oman Ministry of Education's national Educational Portal (~1M users) across development, database/reporting, testing, deployment, rollout and production support.
- Contributed extensively to the large-scale Maktabi / Morasalat electronic correspondence platform for Omani government entities, working hands-on on correspondence creation, routing, forwarding and tracking, reports, database components, functional testing, defect investigation, production deployment and release/application support.
- Delivered the Ministry of Education Recruitment System — recipient of the Sultan Qaboos Award — plus International Schools, Crisis Management and Asset Management systems; also contributed to Ministry of Agriculture delivery and Al Wahat Club Management System for Royal Court Affairs.
- Worked across full-cycle government-system delivery using C#.NET, ASP.NET, SQL Server/MySQL, JavaScript, REST/SOAP services, workflow/RBAC, reporting, integrations, testing, deployment and production-support practices.

Keyframe Egypt | Cairo, Egypt**04/2011 - 05/2016****Development Team Leader & Senior Full-Stack Developer**

- Led a 6-person development team while remaining deeply hands-on across 150+ major and mid-sized projects in government, healthcare, education, construction, automotive, events and commercial sectors; small projects are not included in this count.
- Delivered public-sector and enterprise solutions spanning Ministry of Health work, conference platforms, education and HR systems, support desks and integrations, covering analysis, C#.NET development, databases, reporting, testing, deployment and support.
- Delivered multiple award-winning digital solutions, including Yashfeen, an ITIDA competition-winning healthcare portal.
- Built and customized CMS/electronic-publishing solutions, including a custom .NET CMS and reusable electronic-publishing solutions, with multilingual/RTL publishing, workflows, versioning, archiving, permissions, search, SEO, analytics, and integrations.

Egyptian Armed Forces | Egypt**04/2008 - 10/2010****Linux Systems & Web Developer**

- Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening; also built secure internal ASP.NET/SQL Server applications.

LEADERSHIP APPOINTMENTS & GOVERNANCE CONTRIBUTIONS

- **Member, Egypt Digital Transformation Committee supporting the World Bank Group B-READY Assessment (2025-2026): contributed technical input on private-sector digitization, public-service modernization and national competitiveness.**
- Board Member - National Blood Operations Oversight (2021-2024), appointed by Egypt's Minister of Health: oversaw digital governance, data integrity, and technology standards for the national blood-supply system.
- Governance Lead - National Pharmaceutical Track & Trace Program (2021-2024): shaped the vision, governance framework, compliance model, stakeholder coordination, and technology roadmap across UPA, EDA, and Ministry of Health stakeholders.

SELECTED ENTERPRISE PLATFORMS & PROGRAMS

UPA National Procurement & MediQ Ecosystem

National-scale procurement, medical-supply and inventory/warehouse capabilities with configurable workflows, auditability, analytics/reporting, support services and enterprise integrations; core procurement operations run at ~1M transactions/month.

National Pharmaceutical Track & Trace

Governance and technology roadmap across UPA, Egyptian Drug Authority and Ministry of Health stakeholders, focused on compliance, interoperability, data integrity and coordinated national delivery.

Oman Government Digital Platforms

Led delivery and contributed hands-on across 15+ platforms including the ~1M-user National Educational Portal, Maktabi/Morasalat Electronic Correspondence, Sultan Qaboos Award-winning Ministry of Education Recruitment System, International Schools, Crisis/Asset Management, Al Wahat Club (Royal Court Affairs) and Ministry of Agriculture delivery.

TECHNICAL & MANAGEMENT CAPABILITIES

Executive & Governance: Technology Strategy, IT Operating Model, Portfolio/Roadmaps, Executive Stakeholders, Service Governance, Risk/Controls, Business Continuity/DR Oversight

Architecture & Engineering: Enterprise/Solution Architecture, API & Integration Architecture, Configurable Platforms, C#, .NET/ASP.NET, JavaScript, React, Node.js, GraphQL

Platforms & Operations: E-Procurement, Workflow/BPM, CMS/DMS, RBAC/Audit, Microsoft 365, Endpoint/Device Management, Patch/Vulnerability Management, Technical Support & Customer Service, Service Desk, SLA/Incident/RCA, Training/Adoption

Data, Tooling & AI: SQL Server, PostgreSQL, MySQL, Redis, Git/TFS, Jenkins, Docker, Postman/Swagger, Visual Studio/VS Code, Rider, DataGrip, Applied AI & Enterprise AI Governance

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
