PROFESSIONAL PROFILE

Enterprise and solution architecture leader with 18+ years connecting business capabilities, operating priorities, applications, data, integration, security and delivery into practical current-to-target-state roadmaps. Combines hands-on C#/.NET engineering with architecture governance, platform modernization, multi-tenant/configurable design, shared services, API/integration standards, data governance, NFRs and enterprise technology decision support across national-scale government ecosystems in Egypt and Oman.

CORE LEADERSHIP AREAS

Enterprise Architecture Strategy | Solution Architecture | Target-State Architecture | Architecture Governance | Application & Platform Modernization | API & Integration Architecture | Data Architecture & Governance | Security, Resilience & IT Risk

SELECTED CAREER IMPACT

- Govern enterprise and solution architecture for a national procurement ecosystem serving ~60K users, ~90K facilities/entities and ~300 suppliers, strengthening consistency across applications, data, integrations and governance.
- Shape current-to-target-state architecture for core procurement operations at ~1M transactions/month, aligning platform, data, reporting, integration, validation, security and resilience requirements.
- Led delivery and contributed hands-on across 15+ enterprise/e-government platforms in Oman, including the National Educational Portal serving ~1M users and Sultan Qaboos Award-winning Ministry of Education Recruitment System.
- Standardized reusable application, integration, data and governance patterns across a broad delivery portfolio, strengthening consistency, interoperability, auditability and maintainability.

PROFESSIONAL EXPERIENCE

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt
05/2025 - Present

Head of the Central Administration for Information Systems & Digital Transformation

Scope: Enterprise Architecture | Target-State Roadmaps | Platform, Data, Integration & Governance

- Translate enterprise priorities and business capabilities into current/target-state application, data, integration, security and platform roadmaps for a unified national procurement environment.
- Govern architecture across configurable, modular and API-first platform capabilities, including shared services, RBAC, workflow/rules, DMS/archiving, auditability, publishing, reporting and support services.
- Define and review architecture principles, standards, application boundaries, integration patterns/API contracts, data mappings, NFRs, security controls, performance, resilience, observability and service-transition expectations.
- Lead architecture reviews and decision governance across the SDLC, translating requirements into solution boundaries, data structures, integration contracts, release controls, transition roadmaps and modernization decisions.
- Align business stakeholders, engineering, analysis, QA, infrastructure/security, support, vendors and implementation partners around architecture decisions, ownership, standards and implementation guardrails.

The Egyptian Authority for Unified Procurement, Medical Supply and Management of Medical Technology (UPA) | Cairo, Egypt
10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Applied architecture and systems-analysis practices to modernize procurement, medical-supply, inventory, reporting, CMS/publishing and enterprise workflow capabilities while maintaining operational continuity.
- Converted manual processes into configurable digital workflows with clearer rules, approvals, auditability, role/data-level access, data controls and support ownership.
- Strengthened architecture and engineering standards, design reviews, documentation, integration discipline, QA/release gates and production-support practices.
- Coordinated architecture, data, integration, compliance, rollout and operational-readiness decisions across initiatives involving multiple agencies, including National Pharmaceutical Track & Trace.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Development Team Leader & Senior Full-Stack Developer | Government Client Assignments

- Led a 10+ developer team while remaining hands-on across 15+ enterprise/e-government platforms in Oman, including the National Educational Portal serving ~1M users, Maktabi/Morasalat Electronic Correspondence and Sultan Qaboos Award-winning Ministry of Education Recruitment System.
- Contributed deeply to Maktabi/Morasalat across correspondence workflows, routing/tracking, database/reporting components, testing, defect investigation, deployment and production/application support.
- Delivered/contributed to International Schools, Crisis Management, Asset Management, Ministry of Agriculture and Al Wahat Club Management System for Royal Court Affairs, spanning architecture, development, integrations, reporting, deployment, training and support.

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Development Team Leader & Senior Full-Stack Developer

- Led a 6-person development team while remaining deeply hands-on across 150+ major and mid-sized projects, excluding small engagements, shaping application structure, reusable components, database/reporting approaches, integrations, testing and deployment.
- Delivered public-sector and enterprise solutions spanning Ministry of Health work, conference platforms, education and HR systems, support desks and integrations, covering analysis, C#.NET development, databases, reporting, testing, deployment and support.
- Delivered multiple award-winning digital solutions, including Yashfeen, an ITIDA competition-winning healthcare portal.
- Built and customized CMS/electronic-publishing solutions, including a custom .NET CMS and reusable electronic-publishing solutions, with multilingual/RTL publishing, workflows, versioning, archiving, permissions, search, SEO, analytics, and integrations.

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening; also built secure internal ASP.NET/SQL Server applications.

LEADERSHIP APPOINTMENTS & GOVERNANCE CONTRIBUTIONS

- Member, Egypt Digital Transformation Committee supporting the World Bank Group B-READY Assessment (2025-2026): contributed technical input on digitization, modernization and national competitiveness.
- Board Member - National Blood Operations Oversight (2021-2024), appointed by Egypt's Minister of Health: oversaw digital governance, data integrity and technology standards for the national blood-supply system.
- Governance Lead - National Pharmaceutical Track & Trace Program (2021-2024): shaped governance, compliance, interoperability, data integrity and technology roadmap across UPA, EDA and Ministry of Health stakeholders.

TECHNICAL & MANAGEMENT CAPABILITIES

Enterprise Architecture: Business/Capability Alignment, Current/Target State, Principles & Standards, Reference Patterns, Decision Governance, Portfolio Modernization, Transition Roadmaps

Solution & Platform: Application Architecture, API-First/Integration Architecture, Configurable Platforms, Shared Services, Workflow/RBAC/DMS/CMS, Security & Resilience

Data & Integration: Data Architecture/Governance, MDM, Data Quality, REST/SOAP, GraphQL, JSON, API Contracts, Dynamics 365 Connectivity | NFRs: Security, Performance, Resilience, Observability, Continuity/DR

Engineering Foundation: C#, .NET/ASP.NET, EF/LINQ, JavaScript, React, Node.js, SQL Server/PostgreSQL/MySQL, Redis, Umbraco/Kentico, Telerik/Kendo/Infragistics, Git/TFS, Jenkins, Docker, Postman/Swagger, Rider, DataGrip

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
