PROFESSIONAL PROFILE

IT and Information Systems leader with 18+ years across enterprise applications, service operations, infrastructure and cybersecurity governance, technical support/customer service, digital transformation and software engineering in Egypt and Oman. Progressed from hands-on systems/web engineering and development team leadership to managing national-scale information systems and technology services at UPA. Leads a 54-person technology organization with 7 direct reports supporting a national procurement ecosystem serving ~60K users, combining IT strategy and roadmap execution with operational reliability, governance, vendor/stakeholder coordination, business continuity and technical depth across applications, infrastructure, data and integration.

CORE IT & INFORMATION SYSTEMS LEADERSHIP

IT Strategy & Technology Roadmaps | IT Operations Governance | Information Systems Management | IT Service Management (ITSM) | Service Desk & Customer Support | Enterprise Applications | Infrastructure & Cybersecurity Governance | IT Governance & Policies | Vendor & Stakeholder Coordination | SLAs & Service KPIs | Incident, Problem & RCA | Business Continuity & DR | Digital Transformation

SELECTED CAREER IMPACT

- Lead a 54-person information systems and technology organization with 7 direct reports, overseeing enterprise applications, infrastructure/security governance, a ~20-person service desk/support and customer-service operation, and service delivery for a national procurement ecosystem serving ~60K users.
- Led a 10+ technical team while remaining hands-on across 15+ enterprise/e-government platforms in Oman, including the National Educational Portal serving ~1M users and the Sultan Qaboos Award-winning Ministry of Education Recruitment System.
- Led a 6-person technical team and personally contributed across 150+ major and mid-sized Keyframe projects spanning government, healthcare, education and commercial information systems.
- Strengthened IT service reliability, security and governance through standardized support/escalation practices, release controls, incident/problem/RCA discipline, SLA/service KPIs, continuity/DR controls and operational-readiness guardrails.

PROFESSIONAL EXPERIENCE

Egyptian Authority for Unified Procurement (UPA) | Cairo, Egypt05/2025 - Present

Head of the Central Administration for Information Systems & Digital Transformation

Scope: Information Systems | IT/ICT Operations | Applications | Infrastructure & Cybersecurity | Service Delivery

- Lead information systems and IT/ICT services across procurement, medical supply, inventory, workflow, reporting and support capabilities; translate business priorities into IT strategy, technology roadmaps and coordinated execution across applications, infrastructure/security, data, Service Desk, vendors and stakeholders.
- Govern enterprise application and service lifecycle from requirements and planning through architecture/integration, QA/UAT, release, deployment, service transition and production support; oversee Service Desk ticketing, escalation paths, incident/problem management and SLA performance.
- Set infrastructure and cybersecurity governance across servers/networks, identity/access and RBAC, information-security policies, risk controls, resilience and service-continuity requirements.
- Direct resilience and service-continuity controls spanning backup/DR, auditability, observability and business continuity; coordinate vendors and technology stakeholders around service, delivery and operational requirements.
- Lead team execution and service improvement; use service, incident, release, availability and operational KPIs to strengthen user support, service quality and reliability while guiding modernization across applications, APIs, data, cloud-enabled services, automation and AI.

Egyptian Authority for Unified Procurement (UPA) | Cairo, Egypt10/2020 - 05/2025

General Manager - Systems, Applications & Technical Support

- Directed implementation, modernization, maintenance and high-availability support for enterprise applications and information systems spanning procurement, medical supply, inventory, reporting, CMS/publishing and workflow services, with Service Desk and technical-support ownership.
- Improved IT service-management discipline through ticket ownership and escalation, mentoring, technical enablement, release governance, documentation, SLA/service controls and operational readiness.
- Digitized manual processes into governed information-system workflows with structured approvals, role/data-level access, auditability, validation controls, reporting and operational support.
- Coordinated applications, integration, data, compliance, rollout and operational readiness across multi-agency initiatives, including National Pharmaceutical Track & Trace.

Integral Solutions LLC | Muscat, Oman
Development Team Leader & Senior Full-Stack Developer

05/2016 - 10/2020

Scope: 10+ Technical Team | 15+ Enterprise / E-Government Information Systems | Operations & Delivery

- Led 10+ technical staff across application delivery and support while remaining hands-on in requirements, solution design, C#/.NET development, databases, reporting, testing, deployment, troubleshooting and production support.
- Delivered and supported 15+ enterprise/e-government information systems, including the National Educational Portal serving ~1M users, Maktabi/Morasalat Electronic Correspondence, Ministry of Education Recruitment System, International Schools, Crisis Management and Asset Management.
- Contributed deeply to Maktabi/Morasalat across correspondence lifecycle, workflows, routing/tracking, reporting, database components, access/process controls, testing, troubleshooting, deployment and operational support.
- Delivered solutions using C#, ASP.NET Web Forms, .NET Framework, SQL Server, ADO.NET, Entity Framework, LINQ, JavaScript, jQuery, AJAX, Bootstrap, Web Services/APIs, Kendo UI, Telerik/Infragistics and enterprise reporting tools.

Keyframe Egypt | Cairo, Egypt
Development Team Leader & Senior Full-Stack Developer

04/2011 - 05/2016

Scope: 6-Person Technical Team | 150+ Major & Mid-Sized Information-System Projects

- Led a 6-person technical team across 150+ major and mid-sized projects, managing priorities, workload, quality and delivery while remaining hands-on in application architecture, databases, integrations, testing and deployment.
- Delivered public-sector and enterprise solutions including Ministry of Health & Population work, MSAD, Rate Your Services, National Management Institute, Egypt Calendar, Elections in Egypt, Integrated Conference Management System and Yashfeen.
- Built and customized CMS/electronic-publishing solutions with multilingual/RTL publishing, workflows, versioning, archiving, permissions, search, SEO, analytics and integrations; worked with custom .NET CMS and reusable publishing components.
- Used C#, ASP.NET Web Forms, .NET Framework, SQL Server/MySQL, ADO.NET, Entity Framework, LINQ, JavaScript/jQuery/AJAX, Bootstrap, REST/SOAP/Web Services, Telerik/Kendo/Infragistics and Crystal Reports; delivered multiple award-winning solutions including ITIDA-winning Yashfeen.

Egyptian Armed Forces | Egypt
Linux Systems & Web Developer

04/2008 - 10/2010

- Built early systems/software foundations across Linux administration, shell scripting and Microsoft/.NET web development; contributed to Egypt's first Linux distribution through Linux from Scratch builds, kernel modules, optimization and platform hardening.

IT & INFORMATION SYSTEMS CAPABILITIES

IT Leadership & Service Management: IT Strategy & Roadmaps, IT/ICT Operations, Information Systems Management, ITSM, ~20-Person Service Desk/Customer Support Operation, Ticketing & Escalation, SLA/Service KPIs, Incident/Problem/RCA, Business Continuity/DR, Vendor & Stakeholder Coordination, Team Leadership

Infrastructure & Security: Servers/Networks Oversight, Microsoft 365, Identity & Access Management, Endpoint/Device Management, Patch/Vulnerability Management, Backup/DR, Information-Security Governance & Risk | Applications & Data: Enterprise Applications, C#/.NET, REST APIs, JavaScript, React, Node.js, GraphQL, SQL Server/PostgreSQL/MySQL, Redis, Reporting & Integration

Engineering & Tooling: Git/TFS, Jenkins, CI/CD, Docker, Postman, Swagger/OpenAPI, Visual Studio/VS Code, Rider, DataGrip, Applied AI & Automation | Foundation: Linux, ASP.NET Web Forms/.NET Framework, EF/LINQ, Web Services, HTML/CSS/JavaScript, jQuery/AJAX, Bootstrap, Umbraco/Kentico, Telerik/Kendo/Infragistics, Crystal Reports

SELECTED IT GOVERNANCE CONTRIBUTION

- Governance Lead - National Pharmaceutical Track & Trace Program (2021-2024): technology governance, compliance, interoperability, data integrity and roadmap coordination across UPA, Egyptian Drug Authority and Ministry of Health stakeholders.

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
