PROFESSIONAL PROFILE

IT program and technology-delivery leader with 18+ years progressing from hands-on engineering and development leadership to enterprise-scale program, portfolio and transformation delivery across Egypt and Oman. Led 6-person and 10+ technical teams, delivered 150+ major and mid-sized projects at Keyframe and 15+ enterprise/e-government platforms at Integral, then advanced into national-scale technology portfolio leadership at UPA. Combines technical depth with technology roadmaps, delivery planning, milestones and deliverables, scope/schedule coordination, resource alignment, risk and dependency management, vendor coordination, executive reporting, escalation, operational transition and delivery KPIs.

CORE PROGRAM & TECHNOLOGY DELIVERY LEADERSHIP

IT Program Management | Technical Program Delivery | Project & Portfolio Delivery | Program & Portfolio Governance | Technology Roadmaps & Delivery Plans | Milestones & Deliverables | Scope & Schedule Coordination | Resource Alignment | Risk, Issue & Dependency Management | Escalation | Vendor Coordination | Executive Governance & Status Reporting | Agile / Waterfall / Hybrid Delivery | QA/UAT | Release & Service Transition | Delivery & Outcome KPIs

SELECTED CAREER IMPACT

- Direct national-scale technology portfolio and program delivery within a 54-person organization with 7 direct reports, aligning priorities, resources and dependencies across a procurement ecosystem serving ~60K users.
- Delivered 15+ enterprise/e-government platforms in Oman with a 10+ technical team, coordinating scope, estimates, resources, stakeholders, delivery risks and releases; portfolio highlights include the ~1M-user National Educational Portal and the Sultan Qaboos Award-winning Ministry of Education Recruitment System.
- Managed a multi-client technology portfolio of 150+ major and mid-sized Keyframe projects with a 6-person technical team, excluding small engagements, across government, healthcare, education and commercial sectors.
- Strengthened portfolio execution through structured delivery planning, milestone tracking, risk/escalation discipline, release governance, service-transition readiness and KPI-based executive status reporting.

PROFESSIONAL EXPERIENCE

Egyptian Authority for Unified Procurement (UPA) | Cairo, Egypt **05/2025 - Present**
Head of the Central Administration for Information Systems & Digital Transformation

Scope: Technology Portfolio | Program & Project Delivery | Vendor Governance | Transformation | Service Transition

- Lead a portfolio of enterprise technology initiatives across procurement, medical supply, inventory, data/reporting, workflow, infrastructure/security and support services, aligning business priorities, technical teams, vendors and executive stakeholders through structured governance and delivery reviews.
- Coordinate service transition and operational readiness with the ~20-person support/customer-service operation, using incidents, escalations, training and adoption feedback to inform delivery priorities and handover.
- Govern end-to-end program and project delivery from intake and prioritization through requirements, delivery plans, milestones, deliverables, estimation, architecture/integration, QA/UAT, release, deployment, adoption and production handover.
- Coordinate risks, issues, dependencies and escalation across concurrent workstreams; track technical requirements, integration dependencies, architecture trade-offs and technical risks across security, data quality, resilience, business continuity and operational readiness.
- Direct technology roadmaps and modernization initiatives spanning enterprise applications, APIs, data, automation and AI-assisted services, balancing business value, delivery risk, technical constraints and operational continuity.
- Align team capacity and workload, vendor coordination and steering/executive reporting using project, milestone, release, incident, SLA/service and operational KPIs.

Egyptian Authority for Unified Procurement (UPA) | Cairo, Egypt **10/2020 - 05/2025**
General Manager - Systems, Applications & Technical Support

- Directed delivery and operational transition of enterprise systems spanning procurement, medical supply, inventory, reporting, CMS/publishing and workflow services, coordinating concurrent projects, support operations and modernization priorities.
- Improved program/project delivery discipline through Agile / Waterfall / hybrid planning, estimation, milestone tracking, workload coordination, risk/issue/dependency management, escalation, documentation, release governance and standardized delivery controls.
- Managed digital-transformation initiatives converting manual processes into governed workflows with approvals, access controls, auditability, data validation, reporting and operational ownership.
- Coordinated multi-agency technology programs across applications, integration, data, compliance, rollout and operational readiness, including the National Pharmaceutical Track & Trace program.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Development Team Leader & Senior Full-Stack Developer

Scope: 10+ Technical Team | 15+ Enterprise / E-Government Platforms | Program & Technical Delivery

- Led 10+ technical staff across concurrent enterprise/e-government initiatives, coordinating scope, backlog/priorities, estimates, capacity, risks, stakeholders, releases and support while remaining hands-on in technical delivery.
- Delivered/contributed across 15+ enterprise/e-government platforms, including the National Educational Portal serving ~1M users, Maktabi/Morassalat Electronic Correspondence, Ministry of Education Recruitment System, International Schools, Crisis Management and Asset Management.
- Coordinated complex correspondence-platform delivery across workflows, routing/tracking, reports, database components, testing, issue resolution, deployment and production support, working across technical and business stakeholders.
- Delivered solutions using C#, ASP.NET Web Forms, .NET Framework, SQL Server, ADO.NET, Entity Framework, LINQ, JavaScript, jQuery, AJAX, Bootstrap, Web Services/APIs, Kendo UI, Telerik/Infragistics and enterprise reporting tools.

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Development Team Leader & Senior Full-Stack Developer

Scope: 6-Person Technical Team | 150+ Major & Mid-Sized Projects | Multi-Client Delivery

- Led a 6-person technical team across 150+ major and mid-sized projects, managing scope, estimates, priorities, workload, delivery quality, client coordination and releases while remaining technically hands-on.
- Delivered public-sector and enterprise initiatives for government, healthcare, education, events and commercial organizations, including Ministry of Health & Population work, MSAD, Rate Your Services, National Management Institute, Egypt Calendar, Elections in Egypt and Yashfeen.
- Built and customized CMS/electronic-publishing solutions with multilingual/RTL publishing, workflows, versioning, archiving, permissions, search, SEO, analytics and integrations; worked with custom .NET CMS and reusable publishing components.
- Used C#, ASP.NET Web Forms, .NET Framework, SQL Server/MySQL, ADO.NET, Entity Framework, LINQ, JavaScript/jQuery/AJAX, Bootstrap, REST/SOAP/Web Services, Telerik/Kendo/Infragistics and Crystal Reports; delivered multiple award-winning solutions including ITIDA-winning Yashfeen.

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Built early systems/software foundations across Linux administration, shell scripting and Microsoft/.NET web development; contributed to Egypt's first Linux distribution through Linux from Scratch builds, kernel modules, optimization and platform hardening.

PROGRAM, DELIVERY & TECHNICAL CAPABILITIES

Program & Portfolio: IT/Technical Program Delivery, Project & Portfolio Governance, Technology Roadmaps, Delivery Plans, Milestones, Scope/Schedule Coordination, Resource Alignment, Risk/Issue/Dependency Management, Escalation, Vendor Coordination, Executive Status Reporting, Agile/Waterfall/Hybrid, Service Transition, Delivery KPIs

Technical Program Context: Enterprise Applications, APIs/Integration, Architecture & Cross-System Dependencies, Technical Requirements/Risks, Data & Reporting, Infrastructure/Security, C#/.NET, React, Node.js, GraphQL, SQL Server/PostgreSQL/MySQL | Tooling: Git/TFS, Jenkins, CI/CD, Docker, Postman/Swagger | AI: Applied AI & Automation

Technical Foundation: ASP.NET/.NET Framework, REST/SOAP/Web Services, SQL/Relational Data, JavaScript, Enterprise Reporting, Linux Administration

SELECTED PROGRAM GOVERNANCE CONTRIBUTION

- National Pharmaceutical Track & Trace Program (2021-2024) - Governance & Interoperability Contribution: supported multi-agency governance, stakeholder alignment, compliance, interoperability, data integrity and technology-roadmap coordination across UPA, Egyptian Drug Authority and Ministry of Health stakeholders.

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
