PROFESSIONAL PROFILE

Product and platform-delivery leader with 18+ years progressing from hands-on software engineering and development-team leadership to enterprise-scale platform and digital-service delivery across Egypt and Oman. Leads national-scale platform evolution at UPA for an ecosystem serving ~60K users, combining roadmap and backlog prioritization, stakeholder discovery, cross-functional delivery, release/adoption, service feedback, performance KPIs and continuous improvement. Earlier delivery includes 15+ enterprise/e-government platforms in Oman and 150+ major and mid-sized digital solutions at Keyframe.

CORE PRODUCT & PLATFORM DELIVERY LEADERSHIP

Product & Platform Delivery | End-to-End Platform Delivery | Product/Platform Roadmaps | Backlog & Prioritization | Stakeholder Discovery & Requirements | Stakeholder Needs | Cross-Functional Delivery | Agile/Scrum | Release & Go-Live | Adoption & Change | Product Operations | User/Service Feedback | Platform, Adoption & Service KPIs | Continuous Improvement | Vendor & Third-Party Alignment | Risk & Dependency Management

SELECTED CAREER IMPACT

- Direct platform evolution and delivery priorities for a national procurement ecosystem serving ~60K users, aligning product/platform roadmaps, stakeholder needs, operational evidence and cross-functional technology capacity.
- Delivered and evolved 15+ enterprise/e-government platforms in Oman with a 10+ technical team, including the ~1M-user National Educational Portal and the Sultan Qaboos Award-winning Ministry of Education Recruitment System.
- Delivered 150+ major and mid-sized digital solutions, portals and enterprise applications at Keyframe with a 6-person technical team, excluding small engagements, across government, healthcare, education and commercial sectors.
- Turn service-desk/customer-support feedback, issue trends and operational evidence into enhancement priorities, release decisions and continuous service improvements, with KPI visibility across delivery, incidents, SLAs and adoption.

PROFESSIONAL EXPERIENCE

Egyptian Authority for Unified Procurement (UPA) Cairo, Egypt Head of the Central Administration for Information Systems & Digital Transformation <i>Scope: Enterprise Platform Evolution Roadmaps & Prioritization Cross-Functional Delivery Adoption & Service Improvement</i> • Direct evolution of a unified national procurement platform spanning demand, approvals, tendering, supplier evaluation, contracting, purchase orders, delivery/receipt, reporting, auditability and support, aligning platform priorities with business and service needs. • Translate stakeholder needs, operational pain points, service cases, requirements and technical constraints into product/platform roadmaps, prioritized enhancement and delivery backlogs, workstreams, delivery scope, acceptance needs and platform capabilities from stakeholder discovery through release and adoption. • Lead cross-functional delivery across analysis, architecture, engineering, data/reporting, QA/UAT, infrastructure/security and support; manage dependencies, integration constraints, delivery risks and operational-readiness trade-offs. • Shape platform roadmaps and modernization priorities across enterprise applications, APIs, data, automation and AI-assisted services, balancing business value, user impact, reuse, technical debt, security, data quality and supportability. • Use user and stakeholder feedback, service-desk/customer-support cases, onboarding, training, escalations and production issues to refine priorities and improve usability, reliability, adoption and service outcomes; track platform, adoption and service performance through release, incident, SLA/service and operational KPIs.	05/2025 - Present
---	--------------------------

Egyptian Authority for Unified Procurement (UPA) | Cairo, Egypt
General Manager - Systems, Applications & Technical Support

10/2020 - 05/2025

- Managed ongoing delivery and improvement across procurement, medical-supply, inventory, reporting, CMS/publishing, workflow and stakeholder-service capabilities, coordinating requirements, releases, support and modernization priorities.
- Strengthened product/platform delivery through Agile/Scrum and iterative planning, backlog/prioritization, estimation, stakeholder alignment, QA/UAT, release governance, documentation and repeatable delivery controls.
- Converted manual processes into configurable digital workflows with approvals, access controls, auditability, data validation and reporting, coordinating rollout, user adoption and operational ownership.
- Used support feedback, issue trends, stakeholder priorities and operational evidence to guide enhancement priorities and service improvements across multi-agency initiatives, including National Pharmaceutical Track & Trace.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Development Team Leader & Senior Full-Stack Developer

Scope: 10+ Technical Team | 15+ Enterprise / E-Government Platforms | Platform Delivery & Support

- Led 10+ technical staff across concurrent enterprise/e-government platforms, coordinating requirements, priorities, estimates, capacity, stakeholders, releases and support while remaining hands-on in technical delivery.
- Delivered and supported 15+ enterprise/e-government platforms, including the National Educational Portal serving ~1M users, Maktabi/Morasalat Electronic Correspondence, Ministry of Education Recruitment System, International Schools, Crisis Management and Asset Management.
- Contributed deeply to Maktabi/Morasalat platform evolution across correspondence workflows, routing/tracking, reporting, database components, testing, issue resolution, deployment and production support, working across technical and business stakeholders.
- Delivered solutions using C#, ASP.NET Web Forms, .NET Framework, SQL Server, ADO.NET, Entity Framework, LINQ, JavaScript, jQuery, AJAX, Bootstrap, Web Services/APIs, Kendo UI, Telerik/Infragistics and enterprise reporting tools.

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Development Team Leader & Senior Full-Stack Developer

Scope: 6-Person Technical Team | 150+ Major & Mid-Sized Digital Solutions, Portals & Enterprise Applications

- Led a 6-person technical team across 150+ major and mid-sized digital solutions, portals and enterprise applications, managing priorities, scope, estimates, workload, delivery quality, client coordination and releases while remaining hands-on.
- Delivered public-sector and enterprise digital solutions across government, healthcare, education, events and commercial organizations, including Ministry of Health & Population work, MSAD, Rate Your Services, National Management Institute, Egypt Calendar, Elections in Egypt and Yashfeen.
- Built and evolved CMS/electronic-publishing solutions and platforms with multilingual/RTL publishing, workflows, versioning, archiving, permissions, search, SEO, analytics and integrations using custom .NET CMS and reusable publishing components.
- Delivered multiple award-winning digital solutions, including ITIDA-winning Yashfeen, using the period-appropriate .NET, database, web-services, UI and enterprise-reporting stack.

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Built early systems/software foundations across Linux administration, shell scripting and Microsoft/.NET web development; contributed to Egypt's first Linux distribution through Linux from Scratch builds, kernel modules, optimization and platform hardening.

PRODUCT, PLATFORM & DELIVERY CAPABILITIES

Product & Platform: Enterprise Product/Platform Delivery, Roadmaps, Backlog Prioritization, Stakeholder Discovery, Requirements & Acceptance Criteria, Agile/Scrum, Incremental Delivery, Release/Go-Live, Adoption, Product Operations, User/Service Feedback, Continuous Improvement, Platform & Service KPIs

Cross-Functional Delivery: Stakeholder Alignment, Architecture Reviews, APIs/Integration, Data & Reporting, QA/UAT, Infrastructure/Security Coordination, Support/Customer Service, Vendor Alignment, Risk & Dependencies | Tooling: Git/TFS, Jenkins, CI/CD, Postman/Swagger | AI: Applied AI & Automation

Technical Foundation: C#/.NET, JavaScript, React, Node.js, REST/SOAP APIs, GraphQL, SQL/Relational Data, Workflow/BPM, CMS/DMS, Umbraco, Kentico, RBAC/Audit, Docker, Enterprise Reporting, Linux Administration

SELECTED PLATFORM GOVERNANCE CONTRIBUTION

- National Pharmaceutical Track & Trace Program (2021-2024) - Governance & Interoperability Contribution: supported multi-agency governance, stakeholder alignment, compliance, interoperability, data integrity and technology-roadmap coordination across UPA, Egyptian Drug Authority and Ministry of Health stakeholders.
