PROFESSIONAL PROFILE

Senior technology executive with 18+ years progressing from hands-on Linux/web and C#.NET engineering to development-team leadership, enterprise/e-government delivery and national-scale technology leadership across Egypt and Oman. Leads a 54-person technology organization with 7 direct reports, combining technology strategy, digital transformation, enterprise and solution architecture, software/application delivery, program and portfolio governance, data and integration, IT/service operations, security/risk, vendor management, stakeholder engagement and controlled enterprise AI adoption.

CORE LEADERSHIP AREAS

Technology Strategy & Roadmaps | Digital Transformation | IT / Information Systems Leadership | Enterprise Systems | Software & Application Delivery | Enterprise & Solution Architecture | Program & Portfolio Governance | Data & Integration | IT & Service Governance | Vendor Management | Executive Stakeholder Management | Security, Risk & Business Continuity | Change & Adoption

SELECTED CAREER IMPACT

- Lead a 54-person technology organization with 7 direct reports across national-scale information systems, digital transformation, architecture, delivery and service operations.
- Direct national-scale platform evolution for ~60K users, ~90K facilities/entities, ~300 suppliers and ~1M transactions/month.
- Govern enterprise architecture, data, reporting and integration capabilities that support high-volume operations, cross-platform consistency and executive decision-making.
- Led and contributed hands-on across 15+ enterprise/e-government platforms in Oman, including the National Educational Portal serving ~1M users.
- Transformed manual and fragmented processes into governed digital workflows with approvals, RBAC, auditability, data validation, reporting and operational ownership across public-sector environments.

PROFESSIONAL EXPERIENCE

Egyptian Authority for Unified Procurement (UPA) | Cairo, Egypt 05/2025 - Present
Head of the Central Administration for Information Systems & Digital Transformation

Scope: Technology Strategy | Information Systems | Software Delivery | Enterprise Architecture | Data & Integration | Programs & Governance

- Lead technology strategy, digital-transformation roadmaps and enterprise-systems modernization for national procurement and medical-supply platforms spanning applications, inventory/warehouse services, workflows, data/reporting, integration, support/customer service and government operations.
- Direct a 54-person technology organization with 7 direct reports, aligning software/application delivery, systems/support, architecture, data/reporting, security/governance and service operations around institutional priorities and measurable technology KPIs.
- Direct platform evolution for ~60K users, ~90K facilities/entities, ~300 suppliers and ~1M transactions/month, translating institutional priorities into technology roadmaps, architecture, modernization, service ownership, controls and delivery priorities.
- Govern enterprise/solution architecture across configurable, modular and API-driven platform capabilities, including shared services, RBAC, workflows, documents/archiving, auditability, data governance, integrations, security, performance, resilience and business continuity.
- Govern end-to-end SDLC, program/portfolio delivery, change/adoption and service transition from discovery and requirements through architecture, engineering, QA/UAT, release, deployment, production support, incident/RCA and continuous improvement.
- Oversee a ~20-person support/customer-service operation plus vendor/stakeholder coordination, executive reporting, technology risk/controls and controlled adoption of AI-assisted engineering, analysis and operational workflows.

Egyptian Authority for Unified Procurement (UPA) | Cairo, Egypt 10/2020 - 05/2025
General Manager - Systems, Applications & Technical Support

- Directed enterprise applications, systems, technical support and stakeholder-service delivery across procurement, medical supply, inventory, reporting, CMS/publishing and workflow capabilities.
- Modernized manual processes into governed digital workflows with approvals, RBAC, auditability, data validation, reporting and operational ownership.
- Strengthened engineering and service delivery through clearer ownership, technical standards, architecture/design and code reviews, QA/release gates, documentation, incident/RCA practices, knowledge transfer and repeatable support procedures.
- Coordinated multi-agency initiatives and nationwide onboarding, training, support, escalation, feedback and adoption across public-sector stakeholders.

Integral Solutions LLC | Muscat, Oman

05/2016 - 10/2020

Development Team Leader & Senior Full-Stack Developer

- Led a 10+ developer team while remaining hands-on across 15+ enterprise/e-government platforms; worked extensively on Oman Ministry of Education's national Educational Portal (~1M users) across development, database/reporting, testing, deployment, rollout and production support.
- Contributed extensively to Maktabi / Morasalat electronic correspondence, including workflows, reports, database components, testing, deployment, release and application support.
- Delivered the Ministry of Education Recruitment System — recipient of the Sultan Qaboos Award — plus International Schools, Crisis Management and Asset Management systems; also contributed to Ministry of Agriculture delivery and Al Wahat Club Management System for Royal Court Affairs.
- Worked across full-cycle government-system delivery using C#/ .NET, ASP.NET, SQL Server/MySQL, JavaScript, REST/SOAP services, workflow/RBAC, reporting, integrations, testing, deployment and production-support practices.

Keyframe Egypt | Cairo, Egypt

04/2011 - 05/2016

Development Team Leader & Senior Full-Stack Developer

- Led a 6-person development team while remaining deeply hands-on across 150+ major and mid-sized projects/engagements, excluding small projects, across government, healthcare, education, construction/real estate, automotive, events and commercial sectors.
- Delivered public-sector portals and enterprise solutions spanning CMS, workflow, reporting, integrations, testing, deployment and support.
- Keyframe delivery included multiple award-winning digital solutions; Yashfeen is a confirmed ITIDA competition-winning healthcare portal.
- Built/customized multilingual .NET CMS and electronic-publishing solutions using custom .NET platforms and reusable publishing components, while standardizing reusable components, coding/documentation, testing/release, performance/security review and handover/support practices.

Egyptian Armed Forces | Egypt

04/2008 - 10/2010

Linux Systems & Web Developer

- Contributed to Egypt's first Linux distribution, working on Linux from Scratch builds, kernel modules, optimization, and platform hardening; also built secure internal ASP.NET/SQL Server applications.

SELECTED GOVERNANCE & EXECUTIVE CONTRIBUTIONS

- World Bank Group B-READY Egypt Assessment (2025-2026): contributed on the Egypt side to digital-transformation work supporting private-sector digitization, public-service modernization and national competitiveness.
- National Blood Operations (2021-2024): contributed to oversight/governance relating to digital systems, data integrity and technology standards in the national blood-supply environment.
- National Pharmaceutical Track & Trace Program (2021-2024): contributed to multi-agency governance, stakeholder alignment, compliance, interoperability and technology-roadmap coordination across UPA, Egyptian Drug Authority and Ministry of Health stakeholders.

SELECTED ENTERPRISE PLATFORMS & TRANSFORMATION DOMAINS

Representative Platforms: UPA unified procurement ecosystem and shared workflow/RBAC/audit/reporting/integration services; Oman Educational Portal (~1M users), Maktabi/Morasalat, Recruitment, International Schools, Crisis/Asset Management, Ministry of Agriculture and Egypt Ministry of Health portals.

TECHNICAL & MANAGEMENT CAPABILITIES

Strategy & Governance: Technology Strategy, Digital Transformation, IT Governance, Portfolio/Roadmaps, Executive Stakeholder Management, Enterprise/Solution Architecture, Vendor Management, Risk/Controls, Security Governance, Business Continuity/DR Engineering & Delivery: Enterprise Applications, C#/ .NET, JavaScript, React, Node.js, REST/GraphQL APIs, Workflow/BPM, CMS/DMS, Umbraco/Kentico, Secure SDLC, Agile/Hybrid Delivery, QA/UAT, Release/Go-Live, Change/Adoption, Service Transition

Service, Data & Integration: ~20-Person Technical Support/Customer-Service Operation, Service Desk, SLA/RCA, Training/Adoption, Microsoft 365, Endpoint/Device Management, Patch/Vulnerability Management, Data Governance/Quality, Reporting/Analytics, SQL Server/PostgreSQL/MySQL, Enterprise Integration

Tools & AI: Git/TFS, Jenkins, Docker, Postman/Swagger, Visual Studio/VS Code, Rider, SSMS/DBeaver/DataGrip, Applied AI & Controlled Enterprise AI Adoption

EDUCATION & LANGUAGES

Education: B.Sc. in Computer Science, Faculty of Computers & Informatics, Zagazig University | 2003-2007

Languages: Arabic (Native) | English (Professional Working Proficiency)
